## **LEAVE WITH APPLICANT ACCELERATED BENEFIT SUMMARY AND DISCLOSURE STATEMENT**

**EFFECTIVE DATE** – The Accelerated Benefit Endorsement effective date is the same as the Policy Date shown in the Policy Schedule.

**PREMIUM** – There is no cost for this Endorsement.

The accelerated death benefits provided under the endorsement of this life insurance Policy may provide benefits to pay for long-term care services but are NOT part of a long-term care or nursing home insurance Policy and the amount these products pay may not be enough to cover your medical, nursing home or other bills. Accelerated Death Benefit Payments used to pay for long-term care services are subject to limits imposed by the federal government and any amounts received in excess of these limits are includible in taxable income. You may use the money you receive as an accelerated death benefit for any purpose. Unlike conventional life insurance proceeds, amounts payable as accelerated death benefits **COULD BE TAXABLE UNDER SOME CIRCUMSTANCES**. We recommend that you consult your personal tax advisor prior to electing an accelerated death benefit.

If you already have long-term care insurance, Medicaid, or similar coverage, you should consider whether the accelerated death benefits provided under this Policy are suitable for your needs. Receipt of accelerated death benefits under this Policy **MAY AFFECT YOUR ELIGIBILITY FOR MEDICAID, SUPPLEMENTAL SECURITY INCOME (“SSI”), OR OTHER GOVERNMENT BENEFITS OR ENTITLEMENTS**. Contact the Medicaid Unit of your local Department of Public Welfare and the Social Security Administration Office for more information.

**BENEFIT** – Under the terms of the Endorsement, we will provide a payment of this Benefit during the lifetime of the Insured if the Insured develops a terminal illness. This will be an advance on the death benefit of this Policy. Payment of an Accelerated Benefit will reduce the amount of proceeds payable to your beneficiary.

The maximum amount of accelerated benefit payable is 75% of the Death Benefit (not to exceed \$250,000) of this Policy. Benefits will not be paid more than once for any terminal illness.

**EFFECT OF THE BENEFIT** – The Policy will stay in force. You must pay any required premium when due unless premiums are being waived under a waiver of premium rider. Where applicable, cash values and loan balances and paid-up insurance will be reduced in the same proportion as the amount of benefit paid under this Endorsement. The amount of insurance is the amount of life insurance coverage provided by the Policy to which this Endorsement is attached and may be defined in the policy as “Specified Amount”, “Face Amount” or “Amount of Insurance”.

**NOTICE AND PROOF OF CLAIM** – To apply for this benefit, You must send Us the following:

1. Your written election of this option;
2. Your written designation of us as an irrevocable beneficiary for the portion of the policy death benefit proceeds equal to the Amount of the Accelerated Benefit;
3. Proof acceptable to us from a licensed physician other than the Insured or a member of his immediate family that:
  - a. The Insured has been diagnosed as having a terminal illness;
  - b. Such terminal illness was first diagnosed while the Insured was covered under this policy; and
  - c. Such terminal illness is expected to result in death within two years.

We may require a second opinion and examination of the Insured at our expense by a physician designated by us.

We must receive a signed consent from any irrevocable beneficiaries and any assignees.

**REINSTATEMENT OF ENDORSEMENT** – If the base Policy terminated and is reinstated, the Endorsement may be included with the reinstated Policy, providing it was in force at the time of the Policy's termination.

Inquiries regarding this Summary should be directed to your agent, or to Us at:

**North American Company for Life and Health Insurance  
Administrative Office  
P.O. Box 5088  
Sioux Falls, South Dakota 57117-5088**

Unless otherwise provided in the election of this option, the Payee may neither commute, anticipate, assign, alienate nor otherwise encumber any payment under this option. Proceeds under the policy and any rider and any payment under this endorsement will be exempt from the claims of creditors and from legal process to the extent permitted by law.

# TESTING FOR HIV INFECTION

Deciding to be tested for HIV, the *human immunodeficiency virus*, may not be easy. If you or someone you know has questions about being tested for HIV, here are some facts that may help.

### What tests are most commonly used to detect HIV infection?

There are three types of HIV tests commonly used.

1. The **ELISA** is the standard screening test used to detect HIV antibodies in a sample of blood, urine or saliva. If HIV antibodies are detected by an ELISA, the test is repeated. If the second test reacts to the presence of HIV antibodies, the sample is tested using the Western blot and IFA to confirm. Results from this type of HIV test are usually available within one to two weeks.
2. The **rapid** HIV test detects antibodies to HIV-1. A small sample of blood is taken using a “fingerstick” or small pin prick to the finger. A positive test result suggests that antibodies to HIV are present. If HIV antibodies are not present in the blood, the test result is interpreted as negative. These preliminary results may be available in less than 30 minutes, after which a confirmatory test must be conducted. The confirmatory results are available within one to two weeks.
3. **Oral** HIV testing is an alternative to blood testing. The oral HIV test uses a sample of mouth tissue taken from the cheek and gum. This tissue contains high levels of antibodies and is free of most of the contaminants found in saliva. If a test result is positive, another test on the same sample is conducted automatically to confirm HIV infection. No needle or blood is involved in this type of HIV test. Test results are usually available within three days.

### How long should I wait before being tested?

Before getting tested, it is important to wait three months from the time you think that HIV exposure may have occurred. This is enough time for most people to develop antibodies to HIV. The average time for HIV antibodies to appear is 25 days. Otherwise, a person may test negative even though they have HIV. This is called the “window period.” During the “window period” and prior to HIV testing, you should avoid behavior that puts others at risk for HIV, including unprotected vaginal, anal or oral sexual intercourse and blood-to-blood contact, as in sharing needles.

### Should I be tested?

If you think you might have been exposed to HIV, you are encouraged to seek individual counseling and testing. It is possible for people to be infected for years and to look and feel healthy, not knowing they are infected with HIV.

You may be at risk for HIV infection if you have—

- Shared needles and syringes.
- Had sex with anyone who injects drugs.
- Had sex with men who have had sex with other men.
- Had sex with multiple partners.

### What is the difference between anonymous and confidential testing?

**Anonymous testing** ensures the privacy of the person being tested. This means that neither names nor any other identifying information that could link a person to their results is recorded. Instead, code names or numbers are used so that only the person who gets the HIV test can find out their test result.

**Confidential testing** ensures that no one can be given the results of an HIV test without the test taker’s written permission, except as required by state law. Test results become part of a person’s medical files at the facility where the test was administered. States that require HIV-positive test results to be reported are required by law to keep the information confidential.

### Why is counseling recommended both before and after taking an HIV test?

Deciding whether or not to get an HIV test is not easy. Fear and worry about the test are very common feelings, both before the test and while waiting for the results. Many people fear the reactions of family, friends, employers and others if test results are positive. Counseling may help you decide what to do and how to respond to the results of the test.

**Pretest** counseling is important for a clear understanding of what the test is and what the test can and cannot tell you. It will help you understand if you are at risk for HIV infection and how to prevent the spread of HIV. Pretest counseling may vary from one test site to another.

**Post-test** counseling can help you understand what your test results mean. It can give you information about how to protect yourself and others from HIV, no matter what the test result is. If your result is positive for HIV infection, a counselor can also refer you for medical, legal and emotional support services, as needed, and can tell you about the kinds of services that are available in your area for people living with HIV infection.

### What does a negative test result mean?

A negative test result shows that no HIV antibodies were found in your blood at the time the test was taken. A negative test result can mean either that you are not infected with HIV or that you are infected, but your body has not yet produced enough antibodies to show up on the test.

If you are advised to have the test repeated, avoid behaviors that put you and others at risk of HIV infection. Then, if you test negative six months later, you probably do not have HIV. To stay uninfected, you can take steps to protect yourself by not having sex without using a latex (or polyurethane) condom and by not sharing needles and syringes.

### What does a positive test result mean?

A positive antibody test result means that you have HIV antibodies in your blood and you are infected with HIV. However, it does not mean that you have developed AIDS. The test cannot tell if or when you will develop AIDS.

A positive test result means that you can infect other people with HIV through sex (vaginal, anal or oral) or by sharing needles and syringes. Also, a pregnant woman who has HIV can infect her baby during pregnancy or birth or through breast feeding.

Your health care provider or HIV/AIDS counselor will talk to you in detail about your test results. He or she can also advise you about taking care of your health and about living with HIV infection. Several types of treatments are available that have helped people living with HIV stay healthy for many years. The goal of most treatments is to extend and improve the quality of life for people with HIV and AIDS by suppressing enough of the virus over time to avoid damage to the immune system. Although not a cure, many treatments have brought hope and new strength to people living with HIV and AIDS.

People living with HIV can get help in notifying sex or needle-sharing partners of their possible exposure to HIV through partner notification programs, which provide prevention counseling, HIV testing and referrals to other services. To learn about partner notification services in your area, contact your state or local public health department.

### What else do I need to know?

- **Costs**—The cost for HIV testing varies. Some clinics offer free testing or request a small donation. Fees for tests given by private health care providers may be higher.
- **Laws**—Laws and regulations for reporting test results vary from state to state. Anonymous testing is not available everywhere. In some states, positive HIV test results must be reported to the local public health department, where they are kept confidential.

## **What about donating blood to get tested?**

Do **not** donate blood to find out your HIV status. The Red Cross tests blood to safeguard the blood supply, not to provide a testing service for people who want to know their HIV status. Because these tests may not detect HIV infection in its earliest stages, people who think they may be infected could be putting other people at risk by donating blood. To find out where HIV testing services are available, call your local Red Cross chapter or station, health department or AIDS service organization.

## **How is HIV spread?**

HIV is spread by—

- Having vaginal, oral or anal sex with someone who has HIV.
- Sharing needles or syringes with someone who has HIV.
- Pregnancy, birth or breast feeding, if the mother has HIV.

**IMPORTANT NOTICE:  
 REPLACEMENT OF LIFE INSURANCE OR ANNUITIES**

**This document must be signed by the applicant and the producer, if there is one, and a copy left with the applicant.**

You are contemplating the purchase of a life insurance policy or annuity contract. In some cases, this purchase may involve discontinuing or changing an existing policy or contract. If so, a replacement is occurring. Financed purchases are also considered replacements.

A *replacement* occurs when a new policy or contract is purchased and, in connection with the sale, you discontinue making premium payments on the existing policy or contract, or an existing policy or contract is surrendered, forfeited, assigned to the replacing insurer, or otherwise terminated or used in a financed purchase.

A *financed purchase* occurs when the purchase of a new policy involves the use of funds obtained by the withdrawal or surrender of or by borrowing some or all of the policy values, including accumulated dividends, of an existing policy, to pay all or part of any premium or payment due on the new policy. A financed purchase is a replacement.

You should carefully consider whether a replacement is in your best interest. You will pay acquisition costs and there may be surrender costs deducted from your policy or contract. You may be able to make changes to your existing policy or contract to meet your insurance needs at less cost. A financed purchase will reduce the value of your existing policy and may reduce the amount paid upon the death of the insured.

We want you to understand the effects of replacements before you make your purchase decision and ask that you answer the following questions and consider the questions on the back of this form.

1. Are you considering discontinuing making premium payments, surrendering, forfeiting, assigning to the insurer, or otherwise terminating your existing policy or contract?  YES  NO
2. Are you considering using funds from your existing policies or contracts to pay premiums due on the new policy or contract?  YES  NO

If you answered "yes" to either of the above questions, list each existing policy or contract you are contemplating replacing (include the name of the insurer, the insured or annuitant and the policy or contract number if available) and whether each policy or contract will be replaced or used as a source of financing:

INSURER NAME	CONTRACT OR POLICY #	INSURED OR ANNUITANT	REPLACED (R) OR FINANCING (F)
1.			
2.			
3.			

Make sure you know the facts. Contact your existing company or its agent for information about the old policy or contract. If you request one, an in-force illustration, policy summary or available disclosure documents must be sent to you by the existing insurer. Ask for and retain all sales material used by the agent in the sales presentation. Be sure that you are making an informed decision.

The existing policy or contract is being replaced because \_\_\_\_\_.

I certify that the responses herein are, to the best of my knowledge, accurate:

I certify that only sales materials approved by North American Company for Life and Health Insurance were used in conjunction with this transaction, and copies of all sales materials including this Important Notice were left with the applicant. A replacement may not be in your best interest, or your decision could be a good one. You should make a careful comparison of the costs and benefits of your existing policy or contract and the proposed policy or contract. One way to do this is to ask the company or agent that sold you your existing policy or contract to provide you with information concerning your existing policy or contract. This may include an illustration of how your existing policy or contract is working now and how it would perform in the future based on certain assumptions. Illustrations should not, however, be used as a sole basis to compare policies or contracts. You should discuss the following with your agent to determine whether replacement or financing your purchase makes sense:

**PREMIUMS:**

- Are they affordable?
- Could they change?
- You're older--are premiums higher for the proposed new policy?
- How long will you have to pay premiums on the new policy? On the old policy?

**POLICY VALUES:**

- New policies usually take longer to build cash values and to pay dividends.
- Acquisition costs for the old policy may have been paid; you will incur costs for the new one.
- What surrender charges do the policies have?
- What expense and sales charges will you pay on the new policy?
- Does the new policy provide more insurance coverage?

**INSURABILITY:**

- If your health has changed since you bought your old policy, the new one could cost you more, or you could be turned down.
- You may need a medical exam for a new policy.
- Claims on most new policies for up to the first two years can be denied based on inaccurate statements.
- Suicide limitations may begin anew on the new coverage.

**IF YOU ARE KEEPING THE OLD POLICY AS WELL AS THE NEW POLICY:**

- How are premiums for both policies being paid?
- How will the premiums on your existing policy be affected?
- Will a loan be deducted from death benefits?
- What values from the old policy are being used to pay premiums?

**IF YOU ARE SURRENDERING AN ANNUITY OR INTEREST SENSITIVE LIFE PRODUCT:**

- Will you pay surrender charges on your old contract?
- What are the interest rate guarantees for the new contract?
- Have you compared the contract charges or other policy expenses?

**OTHER ISSUES TO CONSIDER FOR ALL TRANSACTIONS:**

- What are the tax consequences of buying the new policy?
- Is this a tax-free exchange? (See your tax advisor.)
- Is there a benefit from favorable "grandfathered" treatment of the old policy under the federal tax code?
- Will the existing insurer be willing to modify the old policy?
- How does the quality and financial stability of the new company compare with your existing company?

**RIGHT TO EXAMINE POLICY – It is important to us that you are satisfied with your policy and that it meets your insurance goals. Read it carefully. If you are not satisfied with it, you may return it to our Home Office or to your agent within 30 days after you received it. We will then void it and refund all premiums paid .**
