ACCELERATED BENEFIT SUMMARY AND DISCLOSURE STATEMENT

The accelerated death benefits provided under the endorsement of this life insurance Policy may provide benefits to pay for long-term care services but are NOT part of a long-term care or nursing home insurance Policy and the amount these products pay may not be enough to cover your medical, nursing home or other bills. Accelerated Death Benefit Payments used to pay for long-term care services are subject to limits imposed by the federal government and any amounts received in excess of these limits are includible in taxable income. You may use the money you receive as an accelerated death benefit for any purpose. Unlike conventional life insurance proceeds, amounts payable as accelerated death benefits **COULD BE TAXABLE UNDER SOME CIRCUMSTANCES**. We recommend that you consult your personal tax advisor prior to electing an accelerated death benefit.

If you already have long-term care insurance, Medicaid, or similar coverage, you should consider whether the accelerated death benefits provided under this Policy are suitable for your needs. Receipt of accelerated death benefits under this Policy **MAY AFFECT YOUR ELIGIBILITY FOR MEDICAID, SUPPLEMENTAL SECURITY INCOME ("SSI"), OR OTHER GOVERNMENT BENEFITS OR ENTITLEMENTS**. Contact the Medicaid Unit of your local Department of Public Welfare and the Social Security Administration Office for more information.

EFFECTIVE DATE – The Accelerated Benefit Endorsement effective date is the same as the Policy Date shown in the Policy Schedule.

PREMIUM – There is no cost for this Endorsement.

BENEFIT – Under the terms of the Endorsement, we will provide a payment of this Benefit during the lifetime of the Insured if the Insured develops a terminal illness. This will be an advance on the death benefit of this Policy. Payment of an Accelerated Benefit will reduce the amount of proceeds payable to your beneficiary.

The maximum amount of accelerated benefit payable is 75% of the Death Benefit (not to exceed \$250,000) of this Policy. Benefits will not be paid more than once for any terminal illness.

EFFECT OF THE BENEFIT – The Policy will stay in force. You must pay any required premium when due unless premiums are being waived under a waiver of premium rider. Where applicable, cash values and loan balances and paid-up insurance will be reduced in the same proportion as the amount of benefit paid under this Endorsement. The amount of insurance is the amount of life insurance coverage provided by the Policy to which this Endorsement is attached and may be defined in the policy as "Specified Amount", "Face Amount" or "Amount of Insurance".

NOTICE AND PROOF OF CLAIM – To apply for this benefit, You must send Us the following:

1. Your written election of this option;
2. Your written designation of us as an irrevocable beneficiary for the portion of the policy death benefit proceeds equal to the Amount of the Accelerated Benefit;
3. Proof acceptable to us from a licensed physician other than the Insured or a member of his immediate family that:
 - a. The Insured has been diagnosed as having a terminal illness;
 - b. Such terminal illness was first diagnosed while the Insured was covered under this policy; and
 - c. Such terminal illness is expected to result in death within two years.

We may require a second opinion and examination of the Insured at our expense by a physician designated by us.

We must receive a signed consent from any irrevocable beneficiaries and any assignees.

REINSTATEMENT OF ENDORSEMENT – If the base Policy terminated and is reinstated, the Endorsement may be included with the reinstated Policy, providing it was in force at the time of the Policy's termination.

Inquiries regarding this Summary should be directed to your insurance producer, or to Us at:

ACCELERATED BENEFIT SUMMARY AND DISCLOSURE STATEMENT For Chronic Illness Accelerated Benefit Rider

EFFECTIVE DATE – The Chronic Illness Accelerated Benefit Rider takes effect on the Policy Date.

PREMIUM – There is no additional cost for the Chronic Illness Accelerated Benefit Rider provided under this life insurance Policy. However, a one-time administrative fee is required when the first Accelerated Benefit Payment is made.

NOTICE OF TAX CONSEQUENCES – This accelerated life benefit rider does not and is not intended to qualify as long-term care under Washington State Law. It may not provide all of the benefits or meet all of the standards required of long-term care under Washington law and regulations. Washington State law prevents this accelerated life benefit from being marketed or sold as a long-term care. For purposes of federal tax only, it is intended to be a qualified long-term care product. This Rider is intended to qualify under section 7702B (26 U.S.C. 7702B) of the Internal Revenue Code of 1986 as amended by Public Law 104-191.

If You receive payment of accelerated benefits from a life insurance policy, You may lose Your right to receive certain public funds, such as Medicare, Medicaid, Social Security, Supplemental Security, Supplemental Security Income (SSI), and possibly others. Also, receiving accelerated benefits from a life insurance policy may have tax consequences for You. We cannot give you advice about this. You may wish to obtain advice from a tax professional or an attorney before You decide to receive accelerated benefits from a life insurance policy.

The Accelerated Benefits provided under the Rider of this life insurance Policy may provide benefits to pay for long-term care services but are NOT part of a long-term care or nursing home insurance Policy and the amount these products pay may not be enough to cover Your medical, nursing home or other bills. Accelerated Benefit Payments used to pay for long-term care services are subject to limits imposed by the federal government and any amounts received in excess of these limits are includible in taxable income. You may use the money You receive as an Accelerated Benefit for any purpose.

BENEFIT

Upon written request by the owner (“You”) of the Policy, the company will pay an Accelerated Benefit described below, subject to the limitations and requirements outlined in this Rider. Before any Accelerated Benefit Payments are made, We will send a statement to any assignee or Irrevocable Beneficiary in writing, at his last known address, showing any effect that payment of an Accelerated Benefit will have on the Policy values. Any assignee or Irrevocable Beneficiary must consent before We make an Accelerated Benefit Payment. The maximum Death Benefit that We will accelerate on the Policy is \$1,000,000 under this Rider and any other Accelerated Benefit Rider or Endorsement attached to the Policy.

Under this Rider and while this Rider is in effect, You may elect to receive advancement of the Death Benefit, if the Insured has been Chronically Ill.

An Insured qualifies as being Chronically Ill if the Licensed Health Care Practitioner has certified within the last 12 months that the Insured:

1. Is unable to perform, for at least 90 consecutive days, without Substantial Assistance from another person, at least two Activities of Daily Living; or
2. Requires Substantial Supervision by another person to protect oneself from threats to health and safety due to Severe Cognitive Impairment.

Activities of Daily Living are: Bathing, Contenance, Dressing, Eating, Toileting, or Transferring.

Substantial Assistance means stand-by or hands-on assistance from another person without which the Insured receiving such assistance would be unable to perform Activities of Daily Living. Stand-by assistance means the presence of another person within arm's reach of the Insured that is necessary to prevent, by physical intervention, injury to the Insured while he/she is performing Activities of Daily Living. Hands-on assistance means the direct physical assistance of another person.

Substantial Supervision means requiring continual supervision by another person to protect the Insured from threats to health or safety due to Severe Cognitive Impairment and may include cueing by verbal prompting, gestures, or other similar demonstrations.

Severe Cognitive Impairment means deterioration or loss of intellectual capacity that is comparable to (and includes) Alzheimer's disease and similar forms of irreversible dementia and measured by clinical evidence and standardized tests, which reliably measure impairment in:

1. Short-term or long-term memory; or
2. Orientation to people, places, or time; or
3. Deductive or abstract reasoning; or

The minimum Accelerated Death Benefit at each Election, except the Final Election, is the smaller of 5% of the Death Benefit on the Initial Election Date or \$75,000.

The maximum Accelerated Death Benefit at each Election is the smaller of 24% of the Death Benefit on the Initial Election Date, or \$240,000. This amount may be smaller for a Final Election.

The Accelerated Benefit Payment (Payment) will be determined as of each Election Date. Each Payment will be paid in a lump sum, unless a Periodic Payment is chosen. When a lump sum benefit election is made, You will receive a statement that reflects the change in Policy values.

Under a Periodic Payment, We will divide the Payment into equal Periodic Payments that will be paid in lieu of a lump sum Payment. The Periodic Payments offered by this Rider are semi-annual payments. Each time a Periodic Payment benefit election is made, You will receive a statement that reflects the change in Policy values.

Since the Accelerated Death Benefit is paid prior to death, the Payment received will be reduced by a discount factor and will be less than the amount accelerated.

A Final Election is available if the maximum Accelerated Death Benefit at the time of the Election is greater than the remaining Death Benefit in the Policy, minus the Residual Death Benefit. To make a Final Election, You must choose to accelerate all remaining Death Benefit in Your Policy minus the Residual Death Benefit. The Payment must first be applied to repay any Policy Debt.

Residual Death Benefit – Upon the death of the Insured, We will pay the Beneficiary any remaining portion of the Death Benefit that We have not accelerated to the Owner under this Rider. If a Final Election has occurred, the Residual Death Benefit will be paid to the Beneficiary in a lump sum upon due proof of the death of the Insured. The Residual Death Benefit will be the greater of 5% of the Death Benefit on the Initial Election Date or \$10,000.

EFFECT OF THE BENEFIT

Accelerated Benefits paid under this Rider will reduce the Policy's Death Benefit, Specified Amount and Policy values, if any, which include but are not limited to the Account Value, Surrender Value, and amount available for loan.

You may obtain Policy loans as described under the loan provisions of the Policy. A portion of the Accelerated Benefit Payment will be used to repay any Policy Debt. Following a Final Election, Policy loans are not available.

After the Initial Election Date, no additional Riders or Endorsements may be added to the Policy to which this Rider is attached.

An Election is effective for 12 months starting from the Election Date. While an Election is in effect, the Policy to which this Rider is attached will not enter the Grace Period. If the total Accelerated Death Benefits received under this Rider are equal to or greater than the Cumulative Accelerated Benefit Percentage, shown in the Schedule of Policy Benefits for this Rider, multiplied by the Death Benefit on the Initial Election Date, the Policy will not enter the Grace Period for the remaining life of the Policy.

While an Election is in effect, Partial Surrenders are not available. If the total Accelerated Death Benefits received under this Rider are equal to or greater than the Cumulative Accelerated Benefits Percentage, shown in the Schedule of Policy Benefits for this Rider, multiplied by the Death Benefit on the Initial Election Date, Partial Surrenders are not available for the remaining life of this Policy.

While an Election is in effect, You cannot elect to increase or decrease the Specified Amount or change the Death Benefit Option on the Policy. If the total Accelerated Death Benefits received under this Rider are equal to or greater than the Cumulative Accelerated Benefit Percentage, shown in the Schedule of Policy Benefits for this Rider, multiplied by the Death Benefit on the Initial Election Date, You cannot elect to increase or decrease the Specified Amount or change the Death Benefit Option for the remaining life of this Policy.

If You elect to increase the Specified Amount or change from a Level Death Benefit Option to an Increasing Death Benefit Option while this Rider is in effect, but the evidence of insurability is not satisfactory to meet the requirements for this Rider, the total Death Benefit that We will accelerate on the Policy under this Rider will be limited to the Death Benefit immediately prior to the increase or change in the Death Benefit Option.

If You have enacted a Policy provision or Rider or Endorsement, which restricts You from making any changes to Your Death Benefit, You may not elect Accelerated Benefits under this Rider. This includes any restrictions specified by a Policy provision or Rider or Endorsement, which provide over-loan protection.

Upon a Final Election, all Riders and Endorsements attached to the Policy, except this Rider, will terminate on the final Election Date. A sample illustration of the Impact of Accelerated Benefits on a Policy can be found on page 4 of this disclosure form.

NOTICE OF AIDS VIRUS (HIV) ANTIBODY TESTING AND CONSENT FOR TESTING

The Tests:

To evaluate your eligibility for Insurance or Insurance benefits, you may be asked to provide a sample of your blood for testing and analysis. One of the tests to be performed on this sample would be a test to determine the presence of antibodies to the Human Immunodeficiency Virus (HIV), also known as the AIDS Virus. The HIV antibody test is actually a series of tests done by a medically accepted procedure, which is extremely reliable.

Meaning of Test Results:

While positive HIV antibody test results do not mean that you have AIDS, they do mean that you are at seriously increased risk of developing AIDS or AIDS-related conditions. Federal authorities say that persons who are HIV antibody positive should be considered infected with the AIDS virus and capable of infecting others. Positive HIV antibody test results will adversely affect your insurance application.

An HIV test will be considered positive only after confirmation by a laboratory procedure, which is extremely reliable. Nonetheless, the HIV antibody test is not 100% accurate. Possible errors include:

False Positives: the test gives a positive result, even though you are not infected. This happens only rarely and is more common in persons who have not engaged in high risk behavior. Retesting should be done to help confirm the validity of a positive test.

False Negatives: the test gives a negative result, even though you are infected with HIV. This happens most commonly in recently infected persons; it takes at least 4-12 weeks for a positive test result to develop after a person is infected.

Potential Risks of HIV Testing:

A positive test result may cause you significant anxiety. A positive test may result in uninsurability for life or disability insurance policies you may apply for in the future. Although prohibited by law, discrimination in housing, employment, or public accommodations may result if your test results were to become known to others. A negative result may create a false sense of security.

AIDS:

Acquired Immunodeficiency Syndrome (AIDS) is a life-threatening disorder of the Immune system, caused by a virus, HIV. The virus is transmitted by sexual contact with an infected person, from an infected mother to her newborn infant, or by exposure to infected blood (as in needle sharing during IV drug use). Persons at high risk of contacting AIDS include males who have had sexual contact with another man, intravenous drug users, hemophiliacs, and sexual contacts of any of these persons. AIDS does not typically develop until a person has been infected with HIV for several years. A person may remain free of symptoms for years after becoming infected.

Persons who have a history of high risk behavior should change these behaviors to prevent getting or giving AIDS, regardless of whether they are tested. Specific important changes in behavior include safe sex practices (including condom use for sexual contact with someone other than a long-term monogamous partner) and not sharing needles.

Disclosure of Test Results:

All test results will be treated confidentially. The results will be reported to the insurance company indicated above. They will also be reported to that insurance company's affiliates, reinsurers, or contractors. Access to test results within the insurance company, its affiliates, reinsurers, or contractors is restricted to persons involved in handling or determining applications for coverage or claims of the applicant or claimant. In addition, if your HIV antibody test is abnormal (positive), a generic code signifying a nonspecific blood abnormality may be made known to the Medical Information Bureau (MIB, Inc.) as described in the notice given you at the time of application. The fact that the test has been done and the results of the test will not be otherwise disclosed except as required by law or as authorized by you.

Under state law, individuals whose HIV test results are positive or indeterminate must be provided at least one post-test counseling session at the time they receive their test results. State law prohibits us from sending your HIV test results directly to you. Instead, you are asked to designate a test result recipient qualified to provide any necessary post-test counseling. Under your state's laws, that recipient must be either a health care provider (such as a physician) or a health care agency.

In the space below, please designate a recipient of your HIV test results. State law requires that we provide any positive or indeterminate test results to your state or local health officer.

Name of health care provider (such as a physician) or health care agency for reporting a possible positive or indeterminate test result:

Address _____

Consent:

I have read and I understand this Notice of AIDS Virus (HIV) Antibody Testing and Consent for Testing. For my information, I have been given written material about AIDS. I voluntarily consent to the withdrawal of blood from me by needle or finger prick, the testing of my blood for HIV antibodies, and the disclosure of the test results as described above.

LIFE INSURANCE BUYER'S GUIDE

This guide can help you when you shop for life insurance. It discusses how to:

- Find a Policy That Meets Your Needs and Fits Your Budget
- Decide How Much Insurance You Need
- Make Informed Decisions When You Buy a Policy

Prepared by the National Association of Insurance Commissioners

The National Association of Insurance Commissioners is an association of state insurance regulatory officials. This association helps the various insurance departments to coordinate insurance laws for the benefit of all consumers.

This Guide Does Not Endorse Any Company or Policy.

Reprinted by North American Company for Life and Health Insurance • Executive Office: Chicago, IL

IMPORTANT THINGS TO CONSIDER

1. Review your own insurance needs and circumstances. Choose the kind of policy that has benefits that most closely fit your needs. Ask an agent or company to help you.
2. Be sure that you can handle premium payments. Can you afford the initial premium? If the premium increases later and you still need insurance, can you still afford it?
3. Don't sign an insurance application until you review it carefully to be sure all the answers are complete and accurate.
4. Don't buy life insurance unless you intend to stick with your plan. It may be very costly if you quit during the early years of the policy.
5. Don't drop one policy and buy another without a thorough study of the new policy and the one you have now. Replacing your insurance **may be costly**.
6. Read your policy carefully. Ask your agent or company about anything that is not clear to you.
7. Review your life insurance program with your agent or company every few years to keep up with changes in your income and your needs.

Buying Life Insurance

When you buy life insurance, you want coverage that fits your needs.

FIRST, decide how much you need—and for how long—and what you can afford to pay. Keep in mind the major reason you buy life insurance is to cover the financial effects of unexpected or untimely death. Life insurance also can be one of many ways you plan for the future.

NEXT, learn what kinds of policies will meet your needs and pick the one that best suits you.

THEN, choose the combination of policy premium and benefits that emphasizes protection in case of early death, or benefits in case of long life, or a combination of both.

It makes good sense to ask a life insurance agent or company to help you. An agent can help you review your insurance needs and give you information about the available policies. If one kind of policy doesn't seem to fit your needs, ask about others.

This guide provides only basic information. You can get more facts from a life insurance agent or company or from your public library.

What About the Policy You Have Now?

If you are thinking about dropping a life insurance policy, here are some things you should consider:

- If you decide to replace your policy, don't cancel your old policy until you have received the new one. You then have a minimum period to review your new policy and decide if it is what you wanted.
- It may be costly to replace a policy. Much of what you paid in the early years of the policy you have now, paid for the company's cost of selling and issuing the policy. You may pay this type of cost again if you buy a new policy.
- Ask your tax advisor if dropping your policy could affect your income taxes.

- If you are older or your health has changed, premiums for the new policy will often be higher. You will not be able to buy a new policy if you are not insurable.
- You may have valuable rights and benefits in the policy you now have that are not in the new one.
- If the policy you have now no longer meets your needs, you may not have to replace it. You might be able to change your policy or add to it to get the coverage or benefits you now want.
- At least in the beginning, a policy may pay no benefits for some causes of death covered in the policy you have now.

In all cases, if you are thinking of buying a new policy, check with the agent or company that issued you the one you have now. When you bought your old policy, you may have seen an illustration of the benefits of your policy. Before replacing your policy, ask your agent or company for an updated illustration. Check to see how the policy has performed and what you might expect in the future, based on the amounts the company is paying now.

How Much Do You Need?

Here are some questions to ask yourself:

- How much of the family income do I provide? If I were to die early, how would my survivors, especially my children, get by? Does anyone else depend on me financially, such as a parent, grandparent, brother or sister?
- Do I have children for whom I'd like to set aside money to finish their education in the event of my death?
- How will my family pay final expenses and repay debts after my death?
- Do I have family members or organizations to whom I would like to leave money?
- Will there be estate taxes to pay after my death?
- How will inflation affect future needs?

As you figure out what you have to meet these needs, count the life insurance you have now, including any group insurance where you work or veteran's insurance. Don't forget Social Security and pension plan survivor's benefits. Add other assets you have: savings, investments, real estate and personal property. Which assets would your family sell or cash in to pay expenses after your death?

What is the Right Kind of Life Insurance?

All policies are not the same. Some give coverage for your lifetime and others cover you for specific number of years. Some build up cash values and others do not. Some policies combine different kinds of insurance, and others let you change from one kind of insurance to another. Some policies may offer other benefits while you are still living. Your choice should be based on your needs and what you can afford.

There are two basic types of life insurance: **term insurance** and **cash value insurance**. Term insurance generally has lower premiums in the early years, but does not build up cash values that you can use in the future. You may combine cash value life insurance with term insurance for the period of your greatest need for life insurance to replace income.

Term Insurance covers you for a term of one or more years. It pays a death benefit only if you die in that term. Term insurance

generally offers the largest insurance protection for your premium dollar. It generally does not build up cash value.

You can renew most term insurance policies for one or more terms even if your health has changed. Each time you renew the policy for a new term, premiums may be higher. Ask what the premiums will be if you continue to renew the policy. Also ask if you will lose the right to renew the policy at some age. For a higher premium, some companies will give you the right to keep the policy in force for a guaranteed period at the same price each year. At the end of that time you may need to pass a physical examination to continue coverage, and premiums may increase.

You may be able to trade many term insurance policies for a cash value policy during a conversion period—even if you are not in good health. Premiums for the new policy will be higher than you have been paying for the term insurance.

Cash Value Life Insurance is a type of insurance where the premiums charged are higher at the beginning than they would be for the same amount of term insurance. The part of the premium that is not used for the cost of insurance is invested by the company and builds up a cash value that may be used in a variety of ways. You may borrow against a policy's cash value by taking a policy loan. If you don't pay back the loan and the interest on it, the amount you owe will be subtracted from the benefits when you die, or from the cash value if you stop paying premiums and take out the remaining cash value. You can also use your cash value to keep insurance protection for a limited time or to buy a reduced amount without having to pay more premiums. You also can use the cash value to increase your income in retirement or to help pay for needs such as a child's tuition without canceling the policy. However, to build up this cash value, you must pay higher premiums in the earlier years of the policy. Cash value life insurance may be one of several types: whole life, universal life and variable life are all types of cash value insurance.

Whole Life Insurance covers you for as long as you live if your premiums are paid. You generally pay the same amount in premiums for as long as you live. When you first take out the policy, premiums can be several times higher than you would pay initially for the same amount of term insurance. But they are smaller than the premiums you would eventually pay if you were to keep renewing a term policy until your later years.

Some whole life policies let you pay premiums for a shorter period such as 20 years, or until age 65. Premiums for these policies are higher since the premium payments are made during a shorter period.

Universal Life Insurance is a kind of flexible policy that lets you vary your premium payments. You can also adjust the face amount of your coverage. Increases may require proof that you qualify for the new death benefit. The premiums you pay (less expense charges) go into a policy account that earns interest. Charges are deducted from the account. If your yearly premium payment plus the interest your account earns is less than the charges, your account value will become lower. If it keeps dropping, eventually your coverage will end. To prevent that, you may need to start making premium payments, or increase your premium payments, or lower your death benefits. Even if there is enough in your account to pay the premiums, continuing to pay premiums yourself means that you build up more cash value.

Variable Life Insurance is a kind of insurance where the death benefits and cash values depend on the investment performance of one or more separate accounts, which may be invested in mutual funds or other investments allowed under the policy. Be sure to get the prospectus from the company when buying this kind of policy and **STUDY IT CAREFULLY**. You will have higher death benefits and cash value if the underlying investments do well. Your benefits and cash value will be lower or may disappear if the investments you chose didn't do as well as you expected. You may pay an extra premium for a guaranteed death benefit.

Life Insurance Illustrations

You may be thinking of buying a policy where cash values, death benefits, dividends or premiums may vary based on events or situations the company does not guarantee (such as interest rates). If so, you may get an illustration from the agent or company that helps explain how the policy works. The illustration will show how the benefits that are not guaranteed will change as interest rates and other factors change. The illustration will show you what the company guarantees. It will also show you what *could* happen in the future. Remember that nobody knows what will happen in the future. You should be ready to adjust your financial plans if the cash value doesn't increase as quickly as shown in the illustration. You will be asked to sign a statement that says you understand that some of the numbers in the illustration are not guaranteed.

Finding a Good Value in Life Insurance

After you have decided which kind of life insurance is best for you, compare similar policies from different companies to find which one is likely to give you the best value for your money. A simple comparison of the premiums is not enough. There are other things to consider. For example:

- Do premiums or benefits vary from year to year?
- How much do the benefits build up in the policy?
- What part of the premiums or benefits is not guaranteed?
- What is the effect of interest on money paid and received at different times on the policy?

Remember that no one company offers the lowest cost at **all** ages for **all** kinds and amounts of insurance. You should also consider other factors:

- How quickly does the cash value grow? Some policies have low cash values in the early years that build quickly later on. Other policies have a more level cash value build-up. A year-by-year display of values and benefits can be very helpful. (The agent or company will give you a policy summary or an illustration that will show benefits and premiums for selected years.)
- Are there special policy features that particularly suit your needs?
- How are nonguaranteed values calculated? For example, interest rates are important in determining policy returns. In some companies increases reflect the average interest earnings on all of that company's policies regardless of when issued. In others, the return for policies issued in a recent year, or a group of years, reflects the interest earnings on that group of policies; in this case, amounts paid are likely to change more rapidly when interest rates change.

CAUTION: The insurance commissioner suggests you consider these points:

- Usually, contestable and suicide periods start again under a new policy. Benefits might be excluded under a new policy that would be paid under existing insurance.
- Terminating or altering existing coverage, before new insurance has been issued, might leave you unable to purchase other life insurance or let you buy it only at substantially higher rates.
- You are entitled to advice from the existing agent or company. Such advice might be helpful.
- Study the comments made above by the agent or broker. They apply to you and this proposal. They are important to you and your future.
