EFFECTIVE DATE – The Accelerated Benefit Endorsement effective date is the same as the Policy Date shown in the Policy Schedule.

PREMIUM – There is no cost for this Endorsement.

The accelerated death benefits provided under the endorsement of this life insurance Policy may provide benefits to pay for long-term care services but are NOT part of a long-term care or nursing home insurance Policy and the amount these products pay may not be enough to cover your medical, nursing home or other bills. Accelerated Death Benefit Payments used to pay for long-term care services are subject to limits imposed by the federal government and any amounts received in excess of these limits are includible in taxable income. You may use the money you receive as an accelerated death benefit for any purpose. Unlike conventional life insurance proceeds, amounts payable as accelerated death benefits **COULD BE TAXABLE UNDER SOME CIRCUMSTANCES**. We recommend that you consult your personal tax advisor prior to electing an accelerated death benefit.

If you already have long-term care insurance, Medicaid, or similar coverage, you should consider whether the accelerated death benefits provided under this Policy are suitable for your needs. Receipt of accelerated death benefits under this Policy **MAY AFFECT YOUR ELIGIBILITY FOR MEDICAID, SUPPLEMENTAL SECURITY INCOME (“SSI”), OR OTHER GOVERNMENT BENEFITS OR ENTITLEMENTS**. Contact the Medicaid Unit of your local Department of Public Welfare and the Social Security Administration Office for more information.

BENEFIT – Under the terms of the Endorsement, we will provide a payment of this Benefit during the lifetime of the Insured if the Insured develops a terminal illness. This will be an advance on the death benefit of this Policy. Payment of an Accelerated Benefit will reduce the amount of proceeds payable to your beneficiary.

The maximum amount of accelerated benefit payable is 75% of the Death Benefit (not to exceed \$250,000) of this Policy. Benefits will not be paid more than once for any terminal illness.

EFFECT OF THE BENEFIT – The Policy will stay in force. You must pay any required premium when due unless premiums are being waived under a waiver of premium rider. Where applicable, cash values and loan balances and paid-up insurance will be reduced in the same proportion as the amount of benefit paid under this Endorsement. The amount of insurance is the amount of life insurance coverage provided by the Policy to which this Endorsement is attached and may be defined in the policy as “Specified Amount”, “Face Amount” or “Amount of Insurance”.

NOTICE AND PROOF OF CLAIM – To apply for this benefit, You must send Us the following:

1. Your written election of this option;
2. Your written designation of us as an irrevocable beneficiary for the portion of the policy death benefit proceeds equal to the Amount of the Accelerated Benefit;
3. Proof acceptable to us from a licensed physician other than the Insured or a member of his immediate family that:
 - a. The Insured has been diagnosed as having a terminal illness;
 - b. Such terminal illness was first diagnosed while the Insured was covered under this policy; and
 - c. Such terminal illness is expected to result in death within two years.

We may require a second opinion and examination of the Insured at our expense by a physician designated by us.

We must receive a signed consent from any irrevocable beneficiaries and any assignees.

REINSTATEMENT OF ENDORSEMENT – If the base Policy terminated and is reinstated, the Endorsement may be included with the reinstated Policy, providing it was in force at the time of the Policy's termination.

Inquiries regarding this Summary should be directed to your agent, or to Us at:

Unless otherwise provided in the election of this option, the Payee may neither commute, anticipate, assign, alienate nor otherwise encumber any payment under this option. Proceeds under the policy and any rider and any payment under this endorsement will be exempt from the claims of creditors and from legal process to the extent permitted by law.

ACCELERATED BENEFIT SUMMARY AND DISCLOSURE STATEMENT For Chronic Illness Accelerated Benefit Rider

EFFECTIVE DATE – The Chronic Illness Accelerated Benefit Rider takes effect on the Policy Date.

PREMIUM – There is no additional cost for the Chronic Illness Accelerated Benefit Rider provided under this life insurance Policy. However, an administrative fee is required when an Accelerated Benefit Payment is made.

The Accelerated Benefits provided under the Rider of this life insurance Policy may provide benefits to pay for long-term care services but are NOT part of a long-term care or nursing home insurance Policy and the amount these products pay may not be enough to cover Your medical, nursing home or other bills. Accelerated Benefit Payments used to pay for long-term care services are subject to limits imposed by the federal government and any amounts received in excess of these limits are includible in taxable income. You may use the money You receive as an Accelerated Benefit for any purpose. Unlike conventional life insurance proceeds, amounts payable as Accelerated Benefits COULD BE TAXABLE UNDER SOME CIRCUMSTANCES. We recommend that You consult Your personal tax advisor prior to electing an Accelerated Benefit.

If You already have long-term care insurance, Medicaid, or similar coverage, You should consider whether the Accelerated Benefits provided under this Rider are suitable for Your needs. Receipt of Accelerated Benefits under this Rider MAY AFFECT YOUR ELIGIBILITY FOR MEDICAID, SUPPLEMENTAL SECURITY INCOME (“SSI”), OR OTHER GOVERNMENT BENEFITS OR ENTITLEMENTS. Contact the Medicaid Unit of Your local Department of Public Welfare and the Social Security Administration Office for more information.

BENEFIT

Upon written request by the owner (“You”) of the Policy, the company will pay an Accelerated Benefit described below, subject to the limitations and requirements outlined in this Rider. Any assignee or Irrevocable Beneficiary must consent before We make an Accelerated Benefit Payment. The maximum Death Benefit that We will accelerate on the Policy is \$1,000,000 under this Rider and any other Accelerated Benefit Rider or Endorsement attached to the Policy.

Under this Rider and while this Rider is in effect, You may elect to receive advancement of the Death Benefit, if the Insured has been Chronically Ill for at least 90 consecutive days.

An Insured qualifies as being Chronically Ill if the Chronic Illness First Manifests itself after the Effective Date and a Physician has certified within the last 12 months that the Insured:

1. Is permanently unable to perform, without Substantial Assistance from another person, at least two Activities of Daily Living; or
2. Requires Substantial Supervision by another person to protect oneself from threats to health and safety due to Severe Cognitive Impairment.

Activities of Daily Living are: Bathing, Contenance, Dressing, Eating, Toileting, or Transferring.

Substantial Assistance means stand-by or hands-on assistance from another person without which the Insured receiving such assistance would be unable to perform Activities of Daily Living. Stand-by assistance means the presence of another person within arm’s reach of the Insured that is necessary to prevent, by physical intervention, injury to the Insured while he/she is performing Activities of Daily Living. Hands-on assistance means the direct physical assistance of another person.

Substantial Supervision means requiring continual supervision by another person to protect the Insured from threats to health or safety due to Severe Cognitive Impairment and may include cueing by verbal prompting, gestures, or other similar demonstrations.

Severe Cognitive Impairment means deterioration or loss of intellectual capacity that is measured by clinical evidence and standardized tests, which reliably measure impairment in:

1. Short-term or long-term memory; or
2. Orientation to people, places, or time; or
3. Deductive or abstract reasoning; or
4. Judgment as it relates to safety awareness.

The minimum Accelerated Death Benefit at each Election, except the Final Election, is the smaller of 5% of the Death Benefit on the Initial Election Date or \$75,000.

The maximum Accelerated Death Benefit at each Election is the smaller of 24% of the Death Benefit on the Initial Election Date, or \$240,000. This amount may be smaller for a Final Election.

The Accelerated Benefit Payment (Payment) will be determined as of each Election Date. Each Payment will be paid in a lump sum, unless a Periodic Payment is chosen.

Under a Periodic Payment, We will divide the Payment into equal Periodic Payments that will be paid in lieu of a lump sum Payment. The Periodic Payments offered by this Rider are semi-annual payments.

Since the Accelerated Death Benefit is paid prior to death, the Payment received will be reduced by a discount factor and will be less than the amount accelerated.

A Final Election is available if the maximum Accelerated Death Benefit at the time of the Election is greater than the remaining Death Benefit in the Policy, minus the Residual Death Benefit. To make a Final Election, You must choose to accelerate all remaining Death Benefit in Your Policy minus the Residual Death Benefit. The Payment must first be applied to repay any Policy Debt.

Residual Death Benefit – Upon the death of the Insured, We will pay the Beneficiary any remaining portion of the Death Benefit that We have not accelerated to the Owner under this Rider. If a Final Election has occurred, the Residual Death Benefit will be paid to the Beneficiary in a lump sum upon due proof of the death of the Insured. The Residual Death Benefit will be the greater of 5% of the Death Benefit on the Initial Election Date or \$10,000.

EFFECT OF THE BENEFIT

Accelerated Benefits paid under this Rider will reduce the Policy's Death Benefit, Specified Amount and Policy values, if any, which include but are not limited to the Account Value, Surrender Value, and amount available for loan.

You may obtain Policy loans as described under the loan provisions of the Policy. A portion of the Accelerated Benefit Payment will be used to repay any Policy Debt. Following a Final Election, Policy loans are not available.

After the Initial Election Date, no additional Riders or Endorsements may be added to the Policy to which this Rider is attached.

An Election is effective for 12 months starting from the Election Date. While an Election is in effect, the Policy to which this Rider is attached will not enter the Grace Period. If the total Accelerated Death Benefits received under this Rider are equal to or greater than the Cumulative Accelerated Benefit Percentage, shown in the Schedule of Policy Benefits for this Rider, multiplied by the Death Benefit on the Initial Election Date, the Policy will not enter the Grace Period for the remaining life of the Policy.

While an Election is in effect, Partial Surrenders are not available. If the total Accelerated Death Benefits received under this Rider are equal to or greater than the Cumulative Accelerated Benefits Percentage, shown in the Schedule of Policy Benefits for this Rider, multiplied by the Death Benefit on the Initial Election Date, Partial Surrenders are not available for the remaining life of this Policy.

While an Election is in effect, You cannot elect to increase or decrease the Specified Amount or change the Death Benefit Option on the Policy. If the total Accelerated Death Benefits received under this Rider are equal to or greater than the Cumulative Accelerated Benefit Percentage, shown in the Schedule of Policy Benefits for this Rider, multiplied by the Death Benefit on the Initial Election Date, You cannot elect to increase or decrease the Specified Amount or change the Death Benefit Option for the remaining life of this Policy.

If You elect to increase the Specified Amount or change from a Level Death Benefit Option to an Increasing Death Benefit Option while this Rider is in effect, but the evidence of insurability is not satisfactory to meet the requirements for this Rider, the total Death Benefit that We will accelerate on the Policy under this Rider will be limited to the Death Benefit immediately prior to the increase or change in the Death Benefit Option.

If You have enacted a Policy provision or Rider or Endorsement, which restricts You from making any changes to Your Death Benefit, You may not elect Accelerated Benefits under this Rider. This includes any restrictions specified by a Policy provision or Rider or Endorsement, which provide over-loan protection.

Upon a Final Election, all Riders and Endorsements attached to the Policy, except this Rider, will terminate on the final Election Date. A sample illustration of the Impact of Accelerated Benefits on a Policy is given on the following page.

Information regarding your insurability will be treated as confidential. WISCONSIN NOTICE AND CONSENT FOR HUMAN IMMUNODEFICIENCY TESTING

REQUEST FOR CONSENT FOR TESTING

To evaluate your insurability, North American Company for Life and Health Insurance (Insurer) requests that you be tested to determine the presence of human immunodeficiency virus (HIV) antibody or antigens. By signing and dating this form, you agree that this test may be done and that underwriting decisions may be based on the test results. A licensed laboratory will perform one or more tests approved by the Wisconsin Commissioner of Insurance.

PRETESTING CONSIDERATION

Many public health organizations recommend that, if you have any reason to believe you have been exposed to HIV, you become informed about the implications of the test before being tested. You may obtain information about HIV and counseling from a private health care provider, a public health clinic, or one of the AIDS service organizations on the attached list. You may also wish to obtain an HIV test from an anonymous counseling and testing site before signing this consent form. The Insurer is prohibited from asking you whether you have been tested at an anonymous counseling and testing site and from obtaining the results of such a test. **For further information on these options, contact the Wisconsin HIV/STD/Hepatitis C Information and Referral Center (IRC) hotline at 1-800--334-2437.**

MEANING OF POSITIVE TEST RESULTS

This is not a test for AIDS. It is a test for HIV and shows whether you have been infected by the virus. A positive test result may have an effect on your ability to obtain insurance. A positive test result does not mean that you have AIDS, but it does mean that you are at a seriously increased risk of developing problems with your immune system. HIV tests are very sensitive and specific. Errors are rare but they can occur. If your test result is positive, you may wish to consider further independent testing from your physician, a public health clinic, or an anonymous counseling and testing site. **HIV testing may be arranged by calling the IRC hotline at 1-800-334-2437.**

NOTIFICATION OF TEST RESULTS

If your HIV test result is negative, no routine notification will be sent to you. If your HIV test result is other than normal, the Insurer will contact you and ask for the name of a physician or other health care provider to whom you may authorize disclosure and with whom you may wish to discuss the test results.

DISCLOSURE OF TEST RESULTS

All test results will be treated confidentially. The laboratory that does the testing will report the result to the Insurer. If necessary to process your application, the Insurer may disclose your test result to another entity such as a contractor, affiliate, or reinsurer. If your HIV test is positive, the Insurer may report it to the Medical Information Bureau (MIB, Inc.), as described in the notice given to you at the time of application. If your HIV test is negative, no report about it will be made to the MIB, Inc. The organizations described in this paragraph may maintain the test results in a file or data bank. These organizations may not disclose the fact that the test has been done or the results of the test except as permitted by law or authorized in writing by you.

CONSENT

I have read and I understand this notice and consent for HIV testing. I voluntarily consent to this testing and the disclosure of the test result as described above. A photocopy or facsimile of this form will be as valid as the original.

THE IMPLICATIONS OF TESTING POSITIVE FOR HIV

A positive test result is not a diagnosis of AIDS. A positive test means that you have HIV infection. Like people with other chronic medical problems, people with HIV infection have a spectrum of conditions, ranging from no symptoms to very serious ones. Over time, most people with HIV infection progress along the spectrum toward more serious symptoms. **However, both improved medical management and many options for self-care now provide new hope for people with HIV infection.** Anti-viral drug therapy and preventive antibiotics can delay progression of HIV infection and postpone or modify complications.

It is extremely important to find a knowledgeable, experienced, and supportive health care provider to work with you in evaluating and managing your HIV infection. If you do not know whom to see, consult your local AIDS service organization for a recommendation or call the Wisconsin HIV/STD/Hepatitis C Information and Referral Center (IRC) hotline to obtain a referral. **In Wisconsin, call 1-800-334-2437 or e-mail irc-wisconsin@arcw.org.**

Your health care provider can perform periodic examinations and arrange for appropriate tests to help you decide what treatments and interventions you may want to use. Many people with HIV infection are being successfully treated with anti-viral drugs such as zidovudine (AZT) to slow the progress of the infection. Depending on the results of certain tests of your immune system, you may also benefit from therapies to prevent some infections. People with HIV infection also need regular tuberculosis (TB) screening and certain vaccinations. You and your health care provider can work out a schedule of follow-up visits appropriate for you.

You may also want to utilize some self-care options and nonmedical therapies. A nutritious diet, regular exercise, restful sleep, stress reduction, and spiritual peace (which are important for everyone) are even more helpful for many people with HIV infection. Some people with HIV infection find strength in meditation, massage, and specialized diets. If you are HIV positive, it is healthier to avoid alcohol and recreational drugs because they may damage your immune system.

A positive test result may mean that you have to make changes in certain areas of your life. It is much easier to make these adjustments with the help and support of others. There are support groups and counselors at most AIDS service organizations. You might seek support from your partner or trusted friends, family, clergy, or health professionals.

Counseling can help you put things in perspective. Some people who test positive find that counseling assists them in handling social and intimate relationships, dealing with fear, and promoting self-esteem. Professional counseling can help lessen the effects of the numerous issues that you may face.

You have a responsibility to yourself and to others to avoid transmitting the virus. Counselors can help you sort out your feelings about intimate relationships and help you learn about HIV risk-reduction methods. Not only should you avoid infecting others, but you should also avoid getting reinfected. Getting reinfected may help speed up the process of the HIV infection you already have.

Being HIV positive means taking the right steps to maintain your health. Dealing with the fear is healthier than avoiding the knowledge of HIV infection.

For more information on HIV antibody testing and HIV related services, contact the IRC at 1-800-334-2437 or e-mail irc-wisconsin@arcw.org.

LIFE INSURANCE BUYER'S GUIDE

This guide can help you when you shop for life insurance. It discusses how to:

- Find a Policy That Meets Your Needs and Fits Your Budget
- Decide How Much Insurance You Need
- Make Informed Decisions When You Buy a Policy

Prepared by the National Association of Insurance Commissioners

The National Association of Insurance Commissioners is an association of state insurance regulatory officials. This association helps the various insurance departments to coordinate insurance laws for the benefit of all consumers.

This Guide Does Not Endorse Any Company or Policy.

Reprinted by North American Company for Life and Health Insurance - Executive Office: Chicago, Illinois

IMPORTANT THINGS TO CONSIDER

1. Review your own insurance needs and circumstances. Choose the kind of policy that has benefits that most closely fit your needs. Ask an agent or company to help you.
2. Be sure that you can handle premium payments. Can you afford the initial premium? If the premium increases later and you still need insurance, can you still afford it?
3. Don't sign an insurance application until you review it carefully to be sure all the answers are complete and accurate.
4. Don't buy life insurance unless you intend to stick with your plan. It may be very costly if you quit during the early years of the policy.
5. Don't drop one policy and buy another without a thorough study of the new policy and the one you have now. Replacing your insurance **may be costly**.
6. Read your policy carefully. Ask your agent or company about anything that is not clear to you.
7. Review your life insurance program with your agent or company every few years to keep up with changes in your income and your needs.

Buying Life Insurance

When you buy life insurance, you want coverage that fits your needs.

FIRST, decide how much you need - and for how long - and what you can afford to pay. Keep in mind the major reason you buy life insurance is to cover the financial effects of unexpected or untimely death. Life insurance also can be one of many ways you plan for the future.

NEXT, learn what kinds of policies will meet your needs and pick the one that best suits you.

THEN, choose the combination of policy premium and benefits that emphasizes protection in case of early death, or benefits in case of long life, or a combination of both.

It makes good sense to ask a life insurance agent or company to help you. An agent can help you review your insurance needs and give you information about the available policies. If one kind of policy doesn't seem to fit your needs, ask about others.

This guide provides only basic information. You can get more facts from a life insurance agent or company or from your public library.

What About the Policy You Have Now?

If you are thinking about dropping a life insurance policy, here are some things you should consider:

- If you decide to replace your policy, don't cancel your old policy until you have received the new one. You then have a minimum period to review

your new policy and decide if it is what you wanted.

- It may be costly to replace a policy. Much of what you paid in the early years of the policy you have now, paid for the company's cost of selling and issuing the policy. You may pay this type of cost again if you buy a new policy.
- Ask your tax advisor if dropping your policy could affect you income taxes.
- If you are older or your health has changed, premiums for the new policy will often be higher. You will not be able to buy a new policy if you are not insurable.
- You may have valuable rights and benefits in the policy you now have that are not in the new one.
- If the policy you have now no longer meets your needs, you may not have to replace it. You might be able to change your policy or add to it to get the coverage or benefits you now want.
- At least in the beginning, a policy may pay no benefits for some causes of death covered in the policy you have now.

In all cases, if you are thinking of buying a new policy, check with the agent or company that issued you the one you have now. When you bought your old policy, you may have seen an illustration of the benefits of your policy. Before replacing your policy, ask your agent or company for an updated illustration. Check to see how the policy has performed and what you might expect in the future, based on the amounts the company is paying now.

How Much Do You Need?

Here are some questions to ask yourself:

- How much of the family income do I provide? If I were to die early, how would my survivors, especially my children, get by? Does anyone else depend on me financially, such as a parent, grandparent, brother or sister?
- Do I have children for whom I'd like to set aside money to finish their education in the event of my death?
- How will my family pay final expenses and repay debts after my death?
- Do I have family members or organizations to whom I would like to leave money?
- Will there be estate taxes to pay after my death?
- How will inflation affect future needs?

As you figure out what you have to meet these needs, count the life insurance you have now, including any group insurance where you work or veteran's insurance. Don't forget Social Security and pension plan survivor's benefits. Add other assets you have: savings, investments, real estate and personal property. Which assets would your family sell or cash in to pay expenses after your death?

What is the Right Kind of Life Insurance?

All policies are not the same. Some give coverage for your lifetime and others cover you for specific number of years. Some build up cash values and others do not. Some policies combine different kinds of insurance, and others let you change from one kind of insurance to another. Some policies may offer other benefits while you are still living. Your choice should be based on your needs and what you can afford.

There are two basic types of life insurance: **term insurance** and **cash value insurance**. Term insurance generally has lower premiums in the early years, but does not build up cash values that you can use in the future. You may combine cash value life insurance with term insurance for the period of your greatest need for life insurance to replace income.

Term Insurance covers you for a term of one or more years. It pays a death benefit only if you die in that term. Term insurance generally offers the largest insurance protection for your premium dollar. It generally does not build up cash value.

You can renew most term insurance policies for one or more terms even if your health has changed. Each time you renew the policy for a new term, premiums may be higher. Ask what the premiums will be if you continue to renew the policy. Also ask if you will lose the right to renew the policy at some age. For a higher premium, some companies will give you the right to keep the policy in force for a guaranteed period at the same price each year. At the end of that time you may need to pass a physical examination to continue coverage, and premiums may increase.

You may be able to trade many term insurance policies for a cash value policy during a conversion period - even if you are not in good health. Premiums for the new policy will be higher than you have been paying for the term insurance.

Cash Value Life Insurance is a type of insurance where the premiums charged are higher at the beginning than they would be for the same amount of term insurance. The part of the premium that is not used for the cost of insurance is invested by the company and builds up a cash value that may be used in a variety of ways. You may borrow against a policy's cash value by taking a policy loan. If you don't pay back the loan and the interest on it, the amount you owe will be subtracted from the benefits when you die, or from the cash value if you stop paying premiums and take out the remaining cash value. You can also use your cash value to keep insurance protection for a limited time or to buy a reduced amount without having to pay more premiums. You also can use the cash value to increase your income in retirement or to help pay for needs such as a child's tuition without canceling the policy. However, to build up this cash value, you must pay higher premiums in the earlier years of the policy. Cash value life insurance may be one of several types: whole life, universal life and variable life are all types of cash value insurance.

Whole Life Insurance covers you for as long as you live if your premiums are paid. You generally pay the same amount in premiums for as long as you live. When you first take out the policy, premiums can be several times higher than you would pay initially for the same amount of term insurance. But they are smaller than the premiums you would eventually pay if you were to keep renewing a term policy until your later years.

Some whole life policies let you pay premiums for a shorter period such as 20 years, or until age 65. Premiums for these policies are higher since the premium payments are made during a shorter period.

Universal Life Insurance is a kind of flexible policy that lets you vary your premium payments. You can also adjust the face amount of your coverage. Increases may require proof that you qualify for the new death benefit. The premiums you pay (less expense charges) go into a policy account that earns interest. Charges are deducted from the account. If your yearly premium payment plus the interest your account earns is less than the charges, your account value will become lower. If it keeps dropping, eventually your coverage will end. To prevent that, you may need to start making premium payments, or increase your premium payments, or lower your death benefits. Even if there is enough in your account to pay the premiums, continuing to pay premiums yourself means that you build up more cash value.

Variable Life Insurance is a kind of insurance where the death benefits and cash values depend on the investment performance of one or more separate accounts, which may be invested in mutual funds or other investments allowed under the policy. Be sure to get the prospectus from the company when buying this kind of policy and STUDY IT CAREFULLY. You will have higher death benefits and cash value if the underlying investments do well. Your benefits and cash value will be lower or may disappear if the investments you chose didn't do as well as you expected. You may pay an extra premium for a guaranteed death benefit.

Life Insurance Illustrations

You may be thinking of buying a policy where cash values, death benefits, dividends or premiums may vary based on events or situations the company does not guarantee (such as interest rates). If so, you may get an illustration from the agent or company that helps explain how the policy works. The illustration will show how the benefits that are not guaranteed will change as interest rates and other factors change. The illustration will show you what the company guarantees. It will also show you what *could* happen in the future. Remember that nobody knows what will happen in the future. You should be ready to adjust your financial plans if the cash value doesn't increase as quickly as shown in the illustration. You will be asked to sign a statement that says you understand that some of the numbers in the illustration are not guaranteed.

Finding a Good Value in Life Insurance

After you have decided which kind of life insurance is best for you, compare similar policies from different companies to find which one is likely to give you the best value for your money. A simple comparison of the premiums is not enough. There are other things to consider. For example:

- Do premiums or benefits vary from year to year?
- How much do the benefits build up in the policy?
- What part of the premiums or benefits is not guaranteed?
- What is the effect of interest on money paid and received at different times on the policy?

Once you have decided which type of policy to buy, you can use a cost comparison index to help you compare similar policies. Life insurance agents or companies can give you information about several different kinds of indexes that each work a little differently. One type helps you compare the costs between two policies if you give up the policy and take out the cash value. Another helps you compare your costs if you don't give up your policy before its coverage ends. Some help you decide what kind of questions to ask the agent about the numbers used in an illustration. Each index is useful in some ways, but they all have shortcomings. Ask your agent which will be most helpful to you. Regardless of which index you use, compare index numbers only for similar policies - those that offer basically the same benefits, with premiums payable for the same length of time.

Remember that no one company offers the lowest cost at **all** ages for **all** kinds and amounts of insurance. You should also consider other factors:

- How quickly does the cash value grow? Some policies have low cash values in the early years that build quickly later on. Other policies have a more level cash value build-up. A year-by-year display of values and benefits can be very helpful. (The agent or company will give you a policy summary or an illustration that will show benefits and premiums for selected years.)
- Are there special policy features that particularly suit your needs?
- How are nonguaranteed values calculated? For example, interest rates are important in determining policy returns. In some companies increases reflect the average interest earnings on all of that company's policies regardless of when issued. In others, the return for policies issued in a recent year, or a group of years, reflects the interest earnings on that group of policies; in this case, amounts paid are likely to change more rapidly when interest rates change.

**IMPORTANT NOTICE:
 REPLACEMENT OF LIFE INSURANCE OR ANNUITIES**

This document must be signed by the applicant and the producer, if there is one, and a copy left with the applicant.

You are contemplating the purchase of a life insurance policy or annuity contract. In some cases, this purchase may involve discontinuing or changing an existing policy or contract. If so, a replacement is occurring. Financed purchases are also considered replacements.

A *replacement* occurs when a new policy or contract is purchased and, in connection with the sale, you discontinue making premium payments on the existing policy or contract, or an existing policy or contract is surrendered, forfeited, assigned to the replacing insurer, or otherwise terminated or used in a financed purchase.

A *financed purchase* occurs when the purchase of a new policy involves the use of funds obtained by the withdrawal or surrender of or by borrowing some or all of the policy values, including accumulated dividends, of an existing policy, to pay all or part of any premium or payment due on the new policy. A financed purchase is a replacement.

You should carefully consider whether a replacement is in your best interest. You will pay acquisition costs and there may be surrender costs deducted from your policy or contract. You may be able to make changes to your existing policy or contract to meet your insurance needs at less cost. A financed purchase will reduce the value of your existing policy and may reduce the amount paid upon the death of the insured.

We want you to understand the effects of replacements before you make your purchase decision and ask that you answer the following questions and consider the questions on the back of this form.

1. Are you considering discontinuing making premium payments, surrendering, forfeiting, assigning to the insurer, or otherwise terminating your existing policy or contract? YES NO
2. Are you considering using funds from your existing policies or contracts to pay premiums due on the new policy or contract? YES NO

If you answered "yes" to either of the above questions, list each existing policy or contract you are contemplating replacing (include the name of the insurer, the insured or annuitant and the policy or contract number if available) and whether each policy or contract will be replaced or used as a source of financing:

INSURER NAME	CONTRACT OR POLICY #	INSURED OR ANNUITANT	REPLACED (R) OR FINANCING (F)
1.			
2.			
3.			

Make sure you know the facts. Contact your existing company or its agent for information about the old policy or contract. If you request one, an in-force illustration, policy summary or available disclosure documents must be sent to you by the existing insurer. Ask for and retain all sales material used by the agent in the sales presentation. Be sure that you are making an informed decision.

The existing policy or contract is being replaced because _____.

I certify that the responses herein are, to the best of my knowledge, accurate:

 Applicant's Signature and Printed Name Date

 Producer's Signature and Printed Name Date

I do not want this notice read aloud to me. _____ (Applicants must initial only if they do not want the notice read aloud.)

Producer's Statement

I certify that only sales materials approved by North American Company for Life and Health Insurance were used in conjunction with this transaction, and copies of all sales materials including this Important Notice were left with the applicant. If applicable, electronically presented sales materials shall be provided in printed form to the applicant no later than at the time of policy or contract delivery.

 Producer's Signature and Printed Name Date

A replacement may not be in your best interest, or your decision could be a good one. You should make a careful comparison of the costs and benefits of your existing policy or contract and the proposed policy or contract. One way to do this is to ask the company or agent that sold you your existing policy or contract to provide you with information concerning your existing policy or contract. This may include an illustration of how your existing policy or contract is working now and how it would perform in the future based on certain assumptions. Illustrations should not, however, be used as a sole basis to compare policies or contracts. You should discuss the following with your agent to determine whether replacement or financing your purchase makes sense:

PREMIUMS:

- Are they affordable?
- Could they change?
- You're older--are premiums higher for the proposed new policy?
- How long will you have to pay premiums on the new policy? On the old policy?

POLICY VALUES:

- New policies usually take longer to build cash values and to pay dividends.
- Acquisition costs for the old policy may have been paid; you will incur costs for the new one.
- What surrender charges do the policies have?
- What expense and sales charges will you pay on the new policy?
- Does the new policy provide more insurance coverage?

INSURABILITY:

- If your health has changed since you bought your old policy, the new one could cost you more, or you could be turned down.
- You may need a medical exam for a new policy.
- Claims on most new policies for up to the first two years can be denied based on inaccurate statements.
- Suicide limitations may begin anew on the new coverage.

IF YOU ARE KEEPING THE OLD POLICY AS WELL AS THE NEW POLICY:

- How are premiums for both policies being paid?
- How will the premiums on your existing policy be affected?
- Will a loan be deducted from death benefits?
- What values from the old policy are being used to pay premiums?

IF YOU ARE SURRENDERING AN ANNUITY OR INTEREST SENSITIVE LIFE PRODUCT:

- Will you pay surrender charges on your old contract?
- What are the interest rate guarantees for the new contract?
- Have you compared the contract charges or other policy expenses?

OTHER ISSUES TO CONSIDER FOR ALL TRANSACTIONS:

- What are the tax consequences of buying the new policy?
- Is this a tax-free exchange? (See your tax advisor.)
- Is there a benefit from favorable "grandfathered" treatment of the old policy under the federal tax code?
- Will the existing insurer be willing to modify the old policy?
- How does the quality and financial stability of the new company compare with your existing company?

RIGHT TO EXAMINE POLICY – It is important to us that you are satisfied with your policy and that it meets your insurance goals. Read it carefully. If you are not satisfied with it, you may return it to our Home Office or to your agent within 30 days after you received it. We will then void it and refund all premiums paid .
