REPLACEMENT NOTICE

REPLACING YOUR LIFE INSURANCE POLICY?

Are you thinking about buying a new policy and discontinuing or changing an existing policy? If you are, your decision could be a good one – or a mistake. You will not know for sure unless you take a careful comparison of your existing policy and the proposed policy.

Make sure you understand the facts. Georgia law gives you the right to obtain a policy summary statement from your existing insurer at any time. Ask the company or agent that sold you your existing policy to give you information about it.

The reverse side contains a check list of some of the items you should consider in making your decision. **TAKE TIME TO READ IT.**

Do not let one agent or insurer prevent you from obtaining information from another agent or insurer which may be to your advantage.

Hear both sides before you decide. This way you can be sure you are making a decision that is in *your* best interest.

If you wish a policy summary statement from your existing insurer, or insurers, check this box.

We are required to notify your existing company that you may be replacing their policy.

ITEMS TO CONSIDER

1. If the policy coverages are basically similar, premiums for a new policy may be higher because rates increase as your age increases.
2. Cash values and dividends, if any, may grow slower under a new policy initially because of the initial costs of issuing a policy.
3. Your present insurance company may be able to make a change on terms which may be more favorable than if you replace existing insurance with new insurance.
4. If you borrow against an existing policy to pay premiums on a new policy, death benefits payable under your existing policy will be reduced by the amount of any unpaid loan, including unpaid interest.
5. Current interest rates are not guaranteed. Guaranteed interest rates are usually considerably lower than current rates. What rates are guaranteed?
6. Are premiums guaranteed or subject to change – up or down?
7. Participating policies pay dividends that may materially reduce the cost of insurance over the life of the contract. Dividends, however, are not guaranteed.
8. CAUTION, you are urged not to take action to terminate, assign, or alter your existing life insurance coverage until after you have been issued the new policy, examined it and have found it to be acceptable to you.

And

REMEMBER, you have ten (10) days following receipt of any individual life insurance policy to examine its contents. If you are not satisfied with it for *any* reason, you have the right to return it to the insurer at its home or branch office or to the agent through whom it was purchased, for a full refund of premium.

**Notice and Consent for
HIV-Related Testing
GEORGIA**

**Notice And Consent For FDA Approved Testing Which
May Include AIDS Virus (HIV) Antibody/Antigen Testing**

To determine your insurability, the Insurer designated above ("the Insurer") has requested that you provide a sample of your blood, urine and/or other bodily fluid(s) for FDA approved testing and analysis. All tests will be performed by a licensed laboratory.

Tests may be performed to determine the presence of antibodies or antigens to the Human Immunodeficiency Virus (HIV), also known as the AIDS virus. The HIV antibody test is actually a series of tests done by a medically accepted procedure. The HIV antigen test directly identifies AIDS viral particles. These tests are extremely reliable. Other tests which may be performed include determinations of blood cholesterol and related lipids (fats) and screening for liver or kidney disorders, diabetes and immune disorders.

All test results will be treated confidentially. They will be reported by the laboratory to the insurer. When necessary for business reasons in connection with insurance you have or have applied for with the insurer, the insurer may disclose test results to others such as its affiliates, reinsurers, independent contractors, and its employees to whom disclosure is reasonably necessary in the ordinary course of business to carry out the purposes for which that disclosure is authorized or required. If the insurer is a member of the Medical Information Bureau ("MIB, Inc."), and if the test results for HIV antibodies/ antigens are other than normal, the insurer will report to the MIB, Inc., a generic code which signifies only a nonspecific test abnormality. The test results may also be disclosed to any member company that receives an application for health or life insurance on your life. If your HIV test is normal, no report will be made about it to the MIB, Inc. Other test results may be reported to the MIB, Inc., in a more specific manner. The organizations described in this paragraph may maintain the test results in a file or data bank. There will be no other disclosure of test results or even that the tests have been done except as may be required or permitted by law or as authorized by you.

If your HIV test results are normal, no routine notification will be sent to you. If the HIV test results are other than normal, the Insurer will contact you. The Insurer may also contact you if there are other abnormal test results which, in the Insurer's opinion, are significant. The Insurer may ask you for the name of a physician or other health care provider to whom you may authorize disclosure and with whom you may wish to discuss the results.

Positive HIV antibody/antigen test results do not mean that you have AIDS, but that you are at significantly increased risk of developing AIDS or AIDS-related conditions. Federal authorities say that persons who are HIV antibody/antigen positive should be considered infected with the AIDS virus and capable of infecting others.

Positive HIV antibody or antigen test results or other significant blood abnormalities will adversely affect your application for insurance. This means that your application may be declined, that an increased premium may be charged or that other policy changes may be necessary.

I have read and I understand this *Notice and Consent for HIV-Related Testing Which May Include AIDS Virus (HIV) Antibody/Antigen Testing*. I voluntarily consent to provide a sample of blood, urine and/or bodily fluid(s), the FDA approved testing of that sample and the disclosure of the test results as described above. I understand that this consent shall be valid for thirty (30) months following the date shown below.

I understand that I have the right to request and receive a copy of this authorization. A photocopy or transmitted facsimile of this form will be as valid as the original. I also have the right, upon written request, to an insurance institution (insurers), agent, or insurance support organization for access to recorded personal information and copy of same within thirty (30) business days from the date such request is received. If my request is not honored, I have the right to file a concise statement of the correct, relevant or fair information; and the reasons why I disagree with such refusal to correct, amend, or delete recorded personal information.

**Notice And Consent For FDA Approved Testing Which
May Include AIDS Virus (HIV) Antibody/Antigen Testing**

To determine your insurability, the Insurer designated above (“the Insurer”) has requested that you provide a sample of your blood, urine and/or other bodily fluid(s) for FDA approved testing and analysis. All tests will be performed by a licensed laboratory.

Tests may be performed to determine the presence of antibodies or antigens to the Human Immunodeficiency Virus (HIV), also known as the AIDS virus. The HIV antibody test is actually a series of tests done by a medically accepted procedure. The HIV antigen test directly identifies AIDS viral particles. These tests are extremely reliable. Other tests which may be performed include determinations of blood cholesterol and related lipids (fats) and screening for liver or kidney disorders, diabetes and immune disorders.

All test results will be treated confidentially. They will be reported by the laboratory to the insurer. When necessary for business reasons in connection with insurance you have or have applied for with the insurer, the insurer may disclose test results to others such as its affiliates, reinsurers, independent contractors, and its employees to whom disclosure is reasonably necessary in the ordinary course of business to carry out the purposes for which that disclosure is authorized or required. If the insurer is a member of the Medical Information Bureau (“MIB, Inc.”), and if the test results for HIV antibodies/ antigens are other than normal, the insurer will report to the MIB, Inc., a generic code which signifies only a nonspecific test abnormality. The test results may also be disclosed to any member company that receives an application for health or life insurance on your life. If your HIV test is normal, no report will be made about it to the MIB, Inc. Other test results may be reported to the MIB, Inc., in a more specific manner. LIFE INSURANCE BUYER'S GUIDE

This guide can help you when you shop for life insurance. It discusses how to:

1. Find a policy that meets your needs and fits your budget
2. Decide how much insurance you need
3. Make informed decisions when you buy a policy

Prepared by the National Association of
Insurance Commissioners

The National Association of Insurance Commissioners is an association of state insurance regulatory officials. This association helps the various Insurance Departments to coordinate insurance laws for the benefit of all consumers.

THIS GUIDE DOES NOT ENDORSE ANY COMPANY OR POLICY.

IMPORTANT THINGS TO CONSIDER

1. Review your own insurance needs and circumstances. Choose the kind of policy that has benefits that most closely fit your needs. Ask an agent or company to help you.
2. Be sure that you can handle premium payments. Can you afford the initial premium? If the premium increases later and you still need insurance, can you still afford it?
3. Don't sign an insurance application until you review it carefully to be sure all the answers are complete and accurate.
4. Don't buy life insurance unless you intend to stick with your plan. It may be very costly if you quit during the early years of the policy.
5. Don't drop one policy and buy another without a thorough study of the new policy and the one you have now. Replacing your insurance may be costly.
6. Read your policy carefully. Ask your agent or company about anything that is not clear to you.
7. Review your life insurance program with your agent or company every few years to keep up with changes in your income and your needs.

BUYING LIFE INSURANCE

When you buy life insurance, you want coverage that fits your needs.

First, decide how much you need— and for how long— and what you can afford to pay. Keep in mind the major reason you buy life insurance is to cover the financial effects of unexpected or timely death. Life

insurance can also be one of many ways you plan for the future.

Next, learn what kinds of policies will meet your needs and pick the one that best suits you.

Then, choose the combination of policy premium and benefits that emphasizes protection in case of early death, or benefits in case of long life, or a combination of both.

It makes good sense to ask a life insurance agent or company to help you. An agent can help you review your insurance needs and give you information about the available policies. If one kind of policy doesn't seem to fit your needs, ask about others.

This guide provides only basic information. You can get more facts from a life insurance agent or company or from your public library.

WHAT ABOUT THE POLICY YOU HAVE NOW?

If you are thinking about dropping a life insurance policy, here are some things you should consider:

1. If you decide to replace your policy, don't cancel your old policy until you have received the new one. You then have a minimum period to review your new policy and decide if it is what you wanted.
2. It may be costly to replace a policy. Much of what you paid in the early years of the policy you have now, paid for the company's cost of selling and issuing the policy. You may pay this type of cost again if you buy a new policy.
3. Ask your tax advisor if dropping your policy could affect your income taxes.
4. If you are older or your health has changed, premiums for the new policy will often be higher. You will not be able to buy a new policy if you are not insurable.
5. You may have valuable rights and benefits in the policy you now have that are not in the new one.
6. If the policy you have now no longer meets your needs, you may not have to replace it. You might be able to change your policy or add to it to get the coverage or benefits you now want.
7. At least in the beginning, a policy may pay no benefits for some causes of death covered in the policy you have now.

In all cases, if you are thinking of buying a new policy, check with the agent or company that issued you the one you have now. When you bought your old policy, you may have seen an illustration of the benefits of your policy. Before replacing your policy, ask your agent or

company for an updated illustration. Check to see how the policy has performed and what you might expect in the future, based on the amounts the company is paying now.

HOW MUCH DO YOU NEED?

Here are some questions to ask yourself:

1. How much of the family income do I provide? If I were to die early, how would my survivors, especially my children, get by? Does anyone else depend on me financially, such as a parent, grandparent, brother or sister?
2. Do I have children for whom I'd like to set aside money to finish their education in the event of my death?
3. How will my family pay final expenses and repay debts after my death?
4. Do I have family members or organizations to whom I would like to leave money?
5. Will there be estate taxes to pay after my death?
6. How will inflation affect future needs?

As you figure out what you have to meet these needs, count the life insurance you have now, including any group insurance where you work or veteran's insurance. Don't forget Social Security and pension plan survivor's benefits. Add other assets you have: savings investments, real estate and personal property. Which assets would your family sell or cash in to pay expenses after your death?

WHAT IS THE RIGHT KIND OF LIFE INSURANCE?

All policies are not the same. Some give coverage for your lifetime and others cover you for a specific number of years. Some build up cash values and others do not. Some policies combine different kinds of insurance, and others let you change from one kind of insurance to another. Some policies may offer other benefits while you are still living. Your choice should be based on your needs and what you can afford.

There are two basic types of life insurance: term insurance and cash value insurance. Term insurance generally has lower premiums in the early years, but does not build up cash values that you can use in the future. You may combine cash value life insurance with term insurance for the period of your greatest need for life insurance to replace income.

Term Insurance covers you for a term of one or more years. It pays a death benefit only if you die in that term. Term insurance generally offers the largest insurance protection for your premium dollar. It generally does not build up cash value.

You can renew most term insurance policies for one or more terms even if your health has changed. Each time you renew the policy for a new term, premiums may be higher. Ask what the premiums will be if you continue to renew the policy. Also ask if you will lose the right to renew the policy at some age. For a higher premium, some companies will give you the right to keep the policy in force for a guaranteed period at the same price each year. At the end of that time you may need to pass a physical examination to continue coverage, and premiums may increase.

You may be able to trade many term insurance policies for a cash value policy during a conversion period — even if you are not in good health. Premiums for the new policy will be higher than you have been paying for the term insurance.

Cash Value Life Insurance is a type of insurance where the premiums charged are higher at the beginning than they would be for the same amount of term insurance. The part of the premium that is not used for the cost of insurance is invested by the company and builds up a cash value that may be used in a variety of ways. You may borrow against a policy's cash value by taking a policy loan. If you don't pay back the loan and the interest on it, the amount you owe will be subtracted from the benefits when you die, or from the cash value if you stop paying premiums and take out the remaining cash value. You can also use your cash value to keep insurance protection for a limited time or to buy a reduced amount without having to pay more premiums. You also can use the cash value to increase your income in retirement or to help pay for needs such as a child's tuition without canceling the policy. However, to build up this cash value, you must pay higher premiums in the earlier years of the policy. Cash value life insurance may be one of several types; whole life, universal life and variable life are all types of cash value insurance.

Whole Life Insurance covers you for as long as you live if your premiums are paid. You generally pay the same amount in premiums for as long as you live. When you first take out the policy, premiums can be several times higher than you would pay initially for the same amount of term insurance. But they are smaller than the premiums you would eventually pay if you were to keep renewing a term policy until your later years.

Some whole life policies let you pay premiums for a shorter period such as 20 years or until age 65. Premiums for these policies are higher since the premium payments are made during a shorter period.

Universal Life Insurance is a kind of flexible policy that lets you vary your premium payments. You can also adjust the face amount of your coverage. Increases may require proof that you qualify for the new death benefit. The premiums you pay (less expense charges) go into a policy account that earns interest. Charges are deducted from the account. If your yearly premium payment plus the interest your account earns is less than the charges, your account value will become lower. If it keeps dropping, eventually your coverage will end. To prevent that, you may need to start making premium payments, or increase your premium payments, or lower your death benefits. Even if there is enough in your account to pay the premiums, continuing to pay premiums yourself means that you build up more cash value.

Variable Life Insurance is a kind of insurance where the death benefits and cash values depend on the investment performance of one or more separate accounts, which may be invested in mutual funds or other investments allowed under the policy. Be sure to get the prospectus from the company when buying this kind of policy and STUDY IT CAREFULLY.

You will have higher death benefits and cash value if the underlying investments do well. Your benefits and cash value will be lower or may disappear if the investments you chose didn't do as well as you expected. You may pay an extra premium for a guaranteed death benefit.

LIFE INSURANCE ILLUSTRATIONS

You may be thinking of buying a policy where cash values, death benefits, dividends or premiums may vary based on events or situations the company does not guarantee (such as interest rates). If so, you may get an illustration from the agency or company that helps explain how the policy works. The illustration will show how the benefits that are not guaranteed will change as interest rates and other factors change. The illustration will show you what the company guarantees. It will also show you what could happen in the future. Remember that nobody knows what will happen in the future. You should be ready to adjust your financial plans if the cash value doesn't increase as quickly as shown in the illustration. You will be asked to sign a statement that says you understand that some of the numbers in the illustrations are not guaranteed.

FINDING A GOOD VALUE IN LIFE INSURANCE

After you have decided which kind of life insurance is best for you, compare similar policies from different companies to find which one is likely to give you the best value for your money. A simple comparison of the premiums is not enough. There are other things to consider. For example:

1. Do premiums or benefits vary from year to year?
2. How much do the benefits build up in the policy?

3. What part of the premiums or benefits is not guaranteed?

4. What is the effect of interest on money paid and received at different times on the policy?

Remember that no one company offers the lowest cost at all ages for all kinds and amounts of insurance. You should also consider other factors:

1. How quickly does the cash value grow? Some policies have low cash values in the early years that build up quickly later on. Other policies have a more level cash value build-up. A year-by-year display of values and benefits can be very helpful. (The agent or company will give you a policy summary or an illustration that will show benefits and premiums for selected years.)

2. Are there special policy features that particularly suit your needs?

3. How are nonguaranteed values calculated? For example, interest rates are important in determining policy returns. In some companies increases reflect the average interest earnings on all of that company's policies regardless of when issued. In others, the return for policies issued in a recent year, or a group of years, reflects the interest earnings on that group of policies; in this case, amounts paid are likely to change more rapidly when interest rates change.

APPLICATION AMENDMENT

Life Insured:

The Application for Policy/Certificate ("Policy") No. _____ is amended as follows:

REQUEST TO BACKDATE POLICY TO "SAVE AGE"

I request that Transamerica Life Insurance Company ("Transamerica") date the life insurance Policy for which I am applying in the application so as to "save age." I understand that dating to "save age" means that each of the regular premium payments I make on the Policy will be lower in dollar amounts than if I did not date to "save age." **I also recognize that dating to save age means part of my first premium payment will be for a period of time during which insurance coverage will not be in effect.** The precise length of that period will depend on a number of factors, such as:

- (a) how far back in weeks or months the Policy needs to be dated in order to qualify for the younger insurance age,
- (b) how long it takes to process my application, which includes how quickly I respond to any requests for information from Transamerica, and
- (c) how quickly I am able to obtain delivery of the Policy and make the first premium payment, **which in most cases is when coverage commences.**

I further understand that I may have the option of making an initial estimated premium payment with my application and that doing so may eliminate or reduce the period of time for which I would be paying premiums without coverage.

I/We declare that I/we have, in an identical manner, completed and signed the copy of this amendment that is attached to and made part of the Policy issued by the Company.

It is agreed that this amendment shall be part of the application for the Policy.

APPLICATION AMENDMENT

Life Insured:

The Application for Policy/Certificate ("Policy") No. is amended as follows:

REQUEST TO BACKDATE POLICY TO "SAVE AGE"

I REQUEST THAT Transamerica Life Insurance Company ("Transamerica") backdate the life insurance Policy for which I am applying in the attached application so as to "save age".

I understand that backdating means that this application is amended to be "dated back" to the time specified in this amendment. I also understand that the Policy I am purchasing is the Policy then available for sale as of the date specified on this amendment.

I understand dating to "save age" means that each of the required Policy premiums I make on the Policy will be lower in dollar amounts than if I did not date to "save age". I realize that backdating means my required fixed premium will be due and payable from my "dated back to save age" date. I recognize and understand my monthly deductions taken from my premium payments will start from the same date and will be for a period of time during which life insurance will not be in effect. Likewise, the Surrender Charge period of my Policy will begin from that same date. Interest will not begin to accrue until either the Policy issue date or the premium payment is received in our Administrative Offices, whichever is later. The precise length of that period in which interest will not accrue depends on a number of factors such as:

- a) how far back in weeks or months the Policy needs to be dated in order to qualify for the applied for plan,
b) how long it takes to process my application, which includes how quickly I respond to any requests for information from Transamerica, and
c) how quickly I am able to obtain delivery of the Policy and make the first premium payment, which in most cases is when coverage begins.

I further understand that I may have the option of making an initial estimated premium payment with my application and that in so doing may eliminate or reduce the period of time for which I would be paying premiums without coverage.

I/We declare that I/we have, in an identical manner, completed and signed the copy of this amendment that is attached to and made part of the Policy issued by the Company.

It is agreed that this amendment shall be part of the application for the Policy.
