**This Receipt cannot become valid unless all blanks are completed above, your check, draft or authorized withdrawal is made payable to Transamerica Life Insurance Company (the Company), this Receipt is signed by a duly authorized insurance producer or other Company authorized representative, and you signify that you understand the conditions and limitations of this Receipt and have had them explained to you by signing the Acknowledgment below.**

**This Receipt does not provide any conditional insurance until after all of the conditions and requirements specified are met, and is strictly limited in scope and amount as set forth below.**

**CONDITIONAL COVERAGE:** Conditional insurance, under the terms of the contract applied for, may become effective as of the date of completing Part 1 of the application, the date of completing Part 2 of the application, or the date requested in the application, whichever is latest (the Effective Date), but only after all the conditions to conditional coverage have been met.

**CONDITIONS TO CONDITIONAL COVERAGE UNDER THIS RECEIPT:** Such conditional insurance will take effect as of the Effective Date, but only so long as all of the following conditions are met:

1. The payment made with the application must be received at our Administrative Office within the lifetime of the Proposed Insured and honored on first presentation for payment;
2. Part 1 and Part 2 of the application, and all medical examinations, tests, screenings and questionnaires required by the Company are completed and received at our Administrative Office;
3. As of the Effective Date, all statements and answers given in the application (both Parts) must be true and complete; and
4. The Company is satisfied that, at the time of completing Part 1 and Part 2 of the application, each person to be covered was insurable at any rating under the Company's rules for insurance on the plan applied for and in the amount and at the Nicotine Classification applied for.

**60-DAY LIMIT OF CONDITIONAL COVERAGE:** If the Company does not approve and accept the application for insurance within 60 days of the date you signed the Part 1, the application will be deemed to be rejected by the Company, and there will be no conditional insurance coverage. In that case, the Company's liability will be limited to returning any payment you have made. The Company has the right to terminate conditional coverage at any time prior to 60 days by mailing a refund of the payment made.

**DOLLAR LIMITS OF CONDITIONAL COVERAGE:** The aggregate amount of conditional coverage provided under this Receipt, if any, and any other Conditional Receipt issued by the Company on each person to be covered shall be limited to the lesser of the amount(s) applied for or \$1,000,000 of life insurance if the Proposed Insured is age 16 - 65 and is insurable at the standard or better class of risk, \$400,000 of life insurance if the Proposed Insured is age 66 - 75 and is insurable at the standard or better class of risk, or \$100,000 for a class of risk with extra ratings regardless of age. There is no conditional coverage for riders or any additional benefits, if any, for which you have applied.

**IF CONDITIONS ARE NOT MET OR DEATH OCCURS FROM SUICIDE, THERE IS NO COVERAGE UNDER THIS RECEIPT.** If one or more of this Receipt's conditions have not been met exactly, or if a Proposed Insured dies by suicide or intentional self-inflicted injury, while sane or insane, the Company will not be liable under this Receipt except to return any payment made with the application. If the Proposed Insured should die before completing all medical examinations, tests, screenings, and questionnaires required by the Company or would not be insurable under the Company's rules, then the Company will not be liable under this Receipt except to return any payment made with the application.

**Except as provided in this Conditional Receipt,** no coverage under the contract you are applying for will become effective unless and until after a contract is delivered to you and all other conditions of coverage set forth in Part 1 of the application have been met.

## **LIFE INSURANCE BUYER'S GUIDE**

This guide can show you how to save money when you shop for life insurance. It helps you to:

1. Decide how much life insurance you should buy,
2. Decide what kind of life insurance policy you need, and
3. Compare the relative cost of similar life insurance policies.

This guide has been prepared by the Illinois Department of Insurance, in part using materials developed by National Association of Insurance Commissioners.

The National Association of Insurance Commissioners is an association of state insurance regulatory officials. This association helps the various State Insurance Departments to coordinate insurance laws for the benefit of all consumers. You are urged to use this Guide in making a life insurance purchase.

### **THIS GUIDE DOES NOT ENDORSE ANY COMPANY OR POLICY**

#### **BUYING LIFE INSURANCE**

When you buy life insurance, you want a policy which fits your needs without costing too much. Your first step is to decide how much you need, how much you can afford to pay and the kind of policy you want. Then, find out what various companies charge for that kind of policy. You can find important differences in the cost of life insurance by using the life insurance cost indexes which are described in this guide. A good life insurance agent or company will be able to and willing to help you with each of these shopping steps.

If you are going to make a good choice when you buy life insurance, you need to understand which kinds are available. If one kind does not seem to fit your needs, ask about the other kinds which are described in this guide. If you feel that you need more information than is given here, you may want to check with a life insurance agent or company or books on life insurance in your public library. Life insurance can be bought either on an individual basis or on a group basis. Group insurance may be inexpensive when compared to individual insurance. It is important to remember that insurance purchased on this basis is usually term insurance, and hence will not develop cash values, and is dependent on your continued membership in the group or employment. Also, the amount of insurance that is available for purchase is usually limited.

## **CHOOSING THE AMOUNT**

One way to decide how much life insurance you need is to figure how much cash and income your dependents would need if you were to die. Life insurance can provide cash for last expenses, and income for your family's future living expenses.

Your insurance should come as close as you can afford to make up the difference between (1) what your dependents would have if you were to die now, and (2) what they would actually need at some time in the future when needs change.

### **CHOOSING THE RIGHT KIND**

All life insurance policies agree to pay an amount of money if you die. But all policies are not the same. There are three basic kinds of life insurance:

1. Term insurance
2. Whole life insurance
3. Endowment insurance

The kind of life insurance you purchase is dependent on the need you are trying to satisfy. Some needs are temporary, i.e. do not exist throughout your life, while other needs are permanent. As an example, the need to finance your children's education is a temporary need. The need to meet mortgage payments is also a temporary need since it exists only while the mortgage exists. On the other hand, the financial needs of your family after your death is a permanent need.

Remember, no matter how fancy the policy title or sales presentation might appear, all life insurance policies contain one or more of the three basic kinds. If you are confused about a policy that sounds complicated, ask the agent or company if it combines more than one kind of life insurance. The following is a brief description of the three basic kinds:

#### **Term Insurance**

Term insurance is death protection for a "term" of one or more years. Death benefits will be paid only if you die within that term of years. Term insurance generally provides the largest immediate death protection for your premium dollar.

Some term insurance policies are "renewable" for one or more additional terms even if your health has changed. Each time you renew the policy for a new term, premiums will be higher. You should check the premiums at older ages and the length of time the policy can be continued.

Some term insurance policies are also “convertible.” This means that before the end of the conversion period, you may trade the term policy for a whole life or endowment insurance policy even if you are not in good health. Premiums for the new policy will be higher than you have been paying for the term insurance.

### **Whole Life Insurance**

Whole life insurance gives death protection for as long as you live. The most common type is called “straight life” or “ordinary life” insurance, for which you pay the same premiums for as long as you live. These premiums can be several times higher than you would pay initially for the same amount of term insurance. But they are smaller than the premiums you would eventually pay if you were to keep renewing a term insurance policy until your later years.

Some whole life policies let you pay premiums for a shorter period such as 20 years, or until age 65. Premiums for these policies are higher than for ordinary life insurance since the premium payments are squeezed into a shorter period.

Although you pay higher premiums, to begin with, for whole life insurance than for term insurance, whole life insurance policies develop “cash values” which you may have if you stop paying premiums. You can generally either take the cash, or use it to buy some continuing insurance protection. Technically speaking, these values are called “nonforfeiture benefits.” This refers to benefits you do not lose (or “forfeit”) when you stop paying premiums. The amount of these benefits depends on the kind of policy you have, its size, and how long you have owned it.

A policy with cash values may also be used as collateral for a loan. If you borrow from the life insurance company, the rate of interest is shown in your policy. Any money which you owe on a policy loan would be deducted from the benefits if you were to die or from the cash value if you were to stop paying premiums.

### **Endowment Insurance**

An endowment insurance policy pays a sum or income to you — the policyholder — if you live to a certain age. If you were to die before then, the death benefit would be paid to your beneficiary. Premiums and cash values for endowment insurance are higher than for the same amount of whole life insurance. Thus endowment insurance gives you the least amount of death protection for your premium dollar.

### **FINDING A LOW COST POLICY**

After you have decided which kind of life insurance fits your needs, look for a good buy. YOUR CHANCES OF FINDING A GOOD BUY ARE BETTER IF YOU USE TWO

TYPES OF INDEX NUMBERS THAT HAVE BEEN DEVELOPED TO AID IN SHOPPING FOR LIFE INSURANCE. One is called the “Surrender Cost Index” and the other is the “Net Payment Cost Index.” It will be worth your time to try to understand how these indexes are used, but in any event, use them ONLY for comparing the relative costs of similar policies. LOOK FOR POLICIES WITH LOW COST INDEX NUMBERS.

### **What Is Cost?**

“Cost” is the difference between what you pay and what you get back. If you pay a premium for life insurance and get nothing back, your cost for the death protection is the premium. If you pay a premium and get something back later on, such as a cash value, your cost is smaller than the premium.

The cost of some policies can also be reduced by dividends; these are called “participating” policies. Companies may tell you what their current dividends are, but the size of future dividends is unknown today and cannot be guaranteed. Dividends actually paid are set each year by the company.

Some policies do not pay dividends. These are called “guaranteed cost” or “non-participating” policies. Every feature of a guaranteed cost policy is fixed so that you know in advance what your future cost will be.

The premiums and cash values of a participating policy are guaranteed, but the dividends are not. Premiums for participating policies are typically higher than for guaranteed cost policies, but the cost to you may be higher or lower, depending on the dividends actually paid.

### **What Are Cost Indexes?**

In order to compare the cost of policies, you need to look at:

1. Premiums
2. Cash Values
3. Dividends

Cost indexes use one or more of these factors to give you a convenient way to compare relative costs of similar policies. When you compare costs, an adjustment must be made to take into account that money is paid and received at different times. It is not enough to just add up the premiums you will pay and to subtract the cash values and dividends you expect to get back. These indexes take care of the arithmetic for you. Instead of having to add, subtract, multiply and divide many numbers yourself, you just compare the index numbers which you can get from life insurance agents and companies:

1. LIFE INSURANCE SURRENDER COST INDEX. This index is useful if you consider the level of the cash values to be of primary importance to you. It helps you

compare costs if at some future point in time, such as 10 or 20 years, you were to surrender the policy and take its cash value.

2. LIFE INSURANCE NET PAYMENT COST INDEX. This index is useful if your main concern is the benefits that are to be paid at your death and if the level of cash values is of secondary importance to you. It helps you compare costs at some future point in time, such as 10 or 20 years, if you continue paying premiums on your policy and do not take its cash value.

There is another number called the Equivalent Level Annual Dividend. It shows the part dividends play in determining the cost index of a participating policy. Adding a policy's Equivalent Level Annual Dividend to its cost index allows you to compare total costs of similar policies before deducting dividends. However, if you make any cost comparisons of a participating policy with a non-participating policy, remember that the total cost of the participating policy will be reduced by dividends, but the cost of the non-participating policy will not change.

### **How Do I Use Cost Indexes?**

The most important thing to remember when using cost indexes is that a policy with a small index number is generally a better buy than a comparable policy with a larger index number. The following rules are also important:

1. Cost comparisons should only be made between similar plans of life insurance. Similar plans are those which provide essentially the same basic benefits and require premium payments for approximately the same period of time. The closer policies are to being identical, the more reliable the cost comparison will be.

2. Compare index numbers only for the kind of policy, for your age and for the amount you intend to buy. Since no one company offers the lowest cost for all types of insurance at all ages and for all amounts of insurance, it is important that you get the indexes for the actual policy, age and amount which you intend to buy. Just because a "Shopper's Guide" tells you that one company's policy is a good buy for a particular age and amount, you should not assume that all of that company's policies are equally good buys.

3. Small differences in index numbers could be offset by other policy features, or differences in the quality of service you may expect from the company or its agent. Therefore, when you find small differences in cost indexes, your choice should be based on something other than cost.

4. In any event, you will need other information on which to base your purchase decision. BE SURE YOU CAN AFFORD THE PREMIUMS, AND THAT YOU UNDERSTAND ITS CASH VALUES, DIVIDENDS AND DEATH BENEFITS. You should also make a judgment on

how well the life insurance company or agent will provide service in the future, to you as a policyholder.

5. These life insurance cost indexes apply to new policies and should not be used to determine whether you should drop a policy you have already owned for awhile, in favor of a new one. If such a replacement is suggested, you should ask for information from the company which issued the old policy before you take action.

6. An important fact to note is the difference in premium payments paid during one year's time based on an annual premium versus the annualized periodic premium. For example, if you choose to pay premiums on a monthly basis, the annualized periodic premium would be twelve (12) times the monthly premium. There may be a significant difference between the annualized periodic premium and the annual premium and it should be considered when deciding on a payment schedule.

### **IMPORTANT THINGS TO REMEMBER – A SUMMARY**

The first decision you must make when buying a life insurance policy is choosing a policy whose benefits and premiums most closely meet your needs and ability to pay. Next, find a policy which is also a relatively good buy. If you compare Surrender Cost Indexes and Net Payment Cost Indexes of similar competing policies, your chances of finding a relatively good buy will be better than if you do not shop. REMEMBER; LOOK FOR POLICIES WITH LOWER COST INDEX NUMBERS. A good life insurance agent can help you to choose the amount of life insurance and kind of policy you want and will give you cost indexes so that you can make cost comparisons of similar policies. DON'T BUY LIFE INSURANCE UNLESS YOU INTEND TO STICK WITH IT. A policy which is a good buy when held for 20 years can be very costly if you quit during the early years of the policy. If you surrender such a policy during the first few years, you may get little or nothing back and much of your premium may have been used for company expenses.

Read your new policy carefully, and ask the agent or company for an explanation of anything you do not understand. Whatever you decide now, it is important to review your life insurance program every few years to keep up with changes in your income and responsibilities.

**APPLICATION AMENDMENT**

Life Insured:

The Application for Policy/Certificate ("Policy") No. \_\_\_\_\_ is amended as follows:

**REQUEST TO BACKDATE POLICY TO "SAVE AGE"**

I request that Transamerica Life Insurance Company ("Transamerica") date the life insurance Policy for which I am applying in the application so as to "save age." I understand that dating to "save age" means that each of the regular premium payments I make on the Policy will be lower in dollar amounts than if I did not date to "save age." **I also recognize that dating to save age means part of my first premium payment will be for a period of time during which insurance coverage will not be in effect.** The precise length of that period will depend on a number of factors, such as:

- (a) how far back in weeks or months the Policy needs to be dated in order to qualify for the younger insurance age,
- (b) how long it takes to process my application, which includes how quickly I respond to any requests for information from Transamerica, and
- (c) how quickly I am able to obtain delivery of the Policy and make the first premium payment, **which in most cases is when coverage commences.**

I further understand that I may have the option of making an initial estimated premium payment with my application and that doing so may eliminate or reduce the period of time for which I would be paying premiums without coverage.

I/We declare that I/we have, in an identical manner, completed and signed the copy of this amendment that is attached to and made part of the Policy issued by the Company.

It is agreed that this amendment shall be part of the application for the Policy.

**APPLICATION AMENDMENT**

Life Insured:

The Application for Policy/Certificate ("Policy") No. \_\_\_\_\_ is amended as follows:

**REQUEST TO BACKDATE POLICY TO "SAVE AGE"**

I REQUEST THAT Transamerica Life Insurance Company ("Transamerica") backdate the life insurance Policy for which I am applying in the attached application so as to "save age".

I understand that backdating means that this application is amended to be "dated back" to the time specified in this amendment. I also understand that the Policy I am purchasing is the Policy then available for sale as of the date specified on this amendment.

I understand dating to "save age" means that each of the required Policy premiums I make on the Policy will be lower in dollar amounts than if I did not date to "save age". I realize that backdating means my required fixed premium will be due and payable from my "dated back to save age" date. **I recognize and understand my monthly deductions taken from my premium payments will start from the same date and will be for a period of time during which life insurance will not be in effect.** Likewise, the Surrender Charge period of my Policy will begin from that same date. Interest will not begin to accrue until either the Policy issue date or the premium payment is received in our Administrative Offices, whichever is later. The precise length of that period in which interest will not accrue depends on a number of factors such as:

- a) how far back in weeks or months the Policy needs to be dated in order to qualify for the applied for plan,
- b) how long it takes to process my application, which includes how quickly I respond to any requests for information from Transamerica, and
- c) how quickly I am able to obtain delivery of the Policy and make the first premium payment, which in most cases is when coverage begins.

I further understand that I may have the option of making an initial estimated premium payment with my application and that in so doing may eliminate or reduce the period of time for which I would be paying premiums without coverage.
