ACCELERATED DEATH BENEFIT ENDORSEMENT SUMMARY AND DISCLOSURE STATEMENT

When used in this disclosure, "Death Benefit" applies to a permanent life insurance policy; "Face Amount" applies to a term or whole life insurance policy.

There is no additional charge for the Accelerated Death Benefit Endorsement. However, there is an administrative fee required each time an Election is made.

The accelerated death benefits may provide benefits to pay for long-term care services but are NOT part of a long-term care or nursing home insurance policy and the amount these products pay may not be enough to cover your medical, nursing home or other bills. Accelerated Death Benefit Payments used to pay for long-term care services are subject to limits imposed by the federal government and any amounts received in excess of these limits are includible in taxable income. You may use the money you receive as an accelerated death benefit for any purpose.

If you already have long-term care insurance, Medicaid, or similar coverage, you should consider whether the accelerated death benefits are suitable for your needs. Receipt of accelerated death benefits MAY AFFECT YOUR ELIGIBILITY FOR MEDICAID, SUPPLEMENTAL SECURITY INCOME ("SSI"), OR OTHER GOVERNMENT BENEFITS OR ENTITLEMENTS. Contact the Medicaid Unit of your local Department of Public Welfare and the Social Security Administration Office for more information.

UNLIKE CONVENTIONAL LIFE INSURANCE PROCEEDS, AMOUNTS PAYABLE AS ACCELERATED DEATH BENEFITS COULD BE TAXABLE UNDER SOME CIRCUMSTANCES. WE RECOMMEND THAT YOU CONSULT YOUR PERSONAL TAX ADVISOR PRIOR TO ELECTING AN ACCELERATED DEATH BENEFIT UNDER THIS ENDORSEMENT TO ASSESS THE TAX TREATMENT IN YOUR INDIVIDUAL CIRCUMSTANCES. THE COMPANY SHALL ACT AS IT DETERMINES IS REQUIRED BY THE INTERNAL REVENUE CODE AND THE REGULATIONS IN REPORTING ANY AMOUNTS PROVIDED PURSUANT TO AN ELECTION UNDER THIS ENDORSEMENT.

PAYMENT OF ACCELERATED DEATH BENEFITS WILL REDUCE THE POLICY'S DEATH BENEFIT OR FACE AMOUNT, MONTHLY DEDUCTIONS OR PREMIUMS, NONFORFEITURE VALUES OR POLICY VALUES, WHICH INCLUDE, BUT ARE NOT LIMITED TO, THE ACCOUNT VALUE, NET CASH SURRENDER VALUE, AND POLICY LOAN VALUE WILL BE REDUCED IN PROPORTION TO THE AMOUNT OF THE DEATH BENEFIT OR FACE AMOUNT THAT IS ACCELERATED.

ACCELERATED DEATH BENEFITS ARE REDUCED BY A NUMBER OF FACTORS, INCLUDING BUT NOT LIMITED TO, THE IMPACT AN ILLNESS HAS ON THE INSURED'S FUTURE MORTALITY EXPECTATIONS AND IN THE CASE OF TERM OR WHOLE LIFE INSURANCE THE AMOUNT OF PREMIUM REMAINING UNTIL THE POLICY EXPIRES OR MATURES. THIS MAY RESULT IN A SMALL BENEFIT OR NO BENEFIT BEING PAID.

THE IMPACT OF ACCELERATED DEATH BENEFIT PAYMENTS

Upon instructions received by the owner of the Policy, the company will pay an Accelerated Death Benefit as described below, subject to the limitations and requirements described in the Accelerated Death Benefit Endorsement. Any assignee or Irrevocable Beneficiary must consent before we make an Accelerated Death Benefit Payment. The Lifetime Maximum Accelerated Death Benefit that we will accelerate is described in the Endorsement.

The Accelerated Death Benefit Payment is discounted. The discount we apply reflects the early payment of the Policy's Death Benefit or Face Amount and includes, among other things:

- (1) A mortality adjustment using our determination of the future expected lifetime of the Insured;
- (2) A discount reflecting the time value of money using the Accelerated Death Benefit Interest Rate; and
- (3) In the case of term insurance, an offset for the uncollected premiums otherwise payable over the life of the Policy.

The factors listed above may reduce the amount of the Accelerated Death Benefit payable. Chronic Illnesses or Critical Illnesses often have little or no impact on the Insured's life expectancy, such that the application of the factor for mortality

and reduced life expectancy could result in a small Accelerated Death Benefit Payment or no Accelerated Death Benefit Payment being paid even if a Qualifying Event has been established.

Proposed Insureds are subject to underwriting eligibility requirements to qualify for the Chronic Illness or Critical Illness Accelerated Death Benefit. Only the Terminal Illness Accelerated Death Benefit is available without underwriting eligibility requirements.

The minimum and maximum Accelerated Death Benefit amounts for Critical, Chronic or Terminal Illness on the Election Date are described in the Endorsement.

Accelerated Death Benefit for Terminal Illness: You may elect to receive advancement of the Death Benefit or Face Amount when the Insured has a Terminal Illness while the Endorsement is in effect.

An Insured qualifies as being Terminally Ill if the Insured has been certified through a certification by a Physician that the Insured has been diagnosed with a medical condition that results in a drastically limited life span. A drastically limited life span is a life span of 24 months or less.

The Accelerated Benefit Payment will be determined upon your Election and will be paid in a lump sum.

We will waive the Monthly Deductions or Premiums following the Election of Accelerated Death Benefits for Terminal Illness. Upon Election, all Endorsements and Riders attached to the Policy will continue to be effective subject to the terms and conditions of each Endorsement or Rider.

After you receive Accelerated Death Benefits for Terminal Illness, you may elect to take withdrawals; increase or decrease the Specified Amount or Face Amount, change the Death Benefit Option; and obtain Policy Loans as described in the Policy.

Only one Election can be made for Terminal Illness.

If the Insured dies after you elect to receive Accelerated Death Benefits, but before any Accelerated Death Benefit Payment is made, the Election will be cancelled and the Death Benefit or Face Amount will be paid as described in the Policy.

Accelerated Death Benefit for Chronic Illness (if available): You may elect to receive advancement of the Death Benefit or Face Amount when the Insured is Chronically Ill while the Endorsement is in effect.

An Insured qualifies as being Chronically Ill if the Insured has been certified through a certification by a Physician within the last 12 months as:

- (a) Being unable to perform, for at least 90 days without Substantial Assistance from another person, at least two Activities of Daily Living; or
- (b) Requiring Substantial Supervision by another person, to protect oneself from threats to health and safety due to Severe Cognitive Impairment.

Activities of Daily Living are bathing, continence, dressing, eating, toileting, or transferring.

Severe Cognitive Impairment means deterioration or loss of intellectual capacity that is measured by clinical evidence and standardized tests which reliably measure impairment in:

- 1. short-term or long-term memory;
- 2. orientation to people, places, or time;
- 3. deductive or abstract reasoning; or
- 4. judgment as it relates to safety awareness.

You can accelerate an amount less than the minimum Accelerated Death Benefit for Chronic Illness allowed if it is necessary to do so to comply with the Lifetime Maximum Accelerated Death Benefit limitation, or if you are making a Final Election.

A Final Election is available if the maximum Chronic Illness Accelerated Death Benefit at the time of Election is greater than the remaining Death Benefit or Face Amount in the Policy, minus the Residual Death Benefit. A Final Election occurs when you accelerate all of the Death Benefit or Face Amount in the Policy, minus the Residual Death Benefit.

The Residual Death Benefit only applies to benefits for Chronic Illness.

We will waive the Monthly Deductions or Premiums while a Chronic Illness Election is in effect if the Death Benefit or Face Amount immediately prior to the Initial Election Date does not exceed the Lifetime Maximum Accelerated Death Benefit. If

the Death Benefit or Face Amount immediately prior to the Initial Election Date exceeds the Lifetime Maximum Accelerated Death Benefit while an Election is in effect, the Monthly Deductions or Premiums will be multiplied by the specified ratio, as described in the Endorsement. Monthly Deductions or Premiums will stop being waived when an Election is no longer in effect.

While the Chronic Illness Election is in effect, you cannot take withdrawals; increase or decrease the Specified Amount or change the Death Benefit Option. After any Election, other than a Final Election, you may elect to obtain Policy Loans as described in the Policy.

After the Initial Election Date, no additional Endorsement and Riders may be added to the Policy. Upon any Election other than a Final Election, all Endorsements and Riders attached to the Policy will continue to be effective subject to the terms and conditions of each Endorsement or Rider. Upon a Final Election, all Endorsements and Riders, except the Accelerated Death Benefit Endorsement, the Guaranteed Insurability Rider, if any, or the Option to Purchase Additional Insurance Rider, if any, will terminate on the Final Election date.

The Chronic Illness Election Period begins on the Election Date of a Chronic Illness and ends immediately prior to the Monthly Anniversary or Monthly Policy Date, as applicable that occurs when the number of completed Policy Months as shown on the Policy Data Pages is completed.

If the Insured dies after you elect to receive Accelerated Death Benefits, but before the payment is made, the Election will be cancelled and the Death Benefit or Face Amount will be paid as described in the Policy. If a Final Election has occurred, the Residual Death Benefit will be paid to the Beneficiary in a lump sum upon due proof of death of the Insured.

Accelerated Death Benefit for Critical Illness (if available): You may elect to receive advancement of the Death Benefit or Face Amount when the Insured is Critically Ill while the Endorsement is in effect.

An Insured qualifies as being Critically Ill if the Insured has been certified through certification by a Physician as having incurred a Specified Medical Condition within the past 12 months. A Specified Medical Condition is defined as one of the following five events:

(a) **Cancer** – means any malignant tumor positively diagnosed with histological confirmation and characterized by the uncontrolled growth of malignant cells and invasion of tissue. The term malignant tumor includes leukemia, lymphoma and sarcoma.

The following are **NOT** covered:

1. All cancers which are histologically classified as any of the following:
 - i) Premalignant;
 - ii) Non-invasive;
 - iii) Cancer in situ;
 - iv) Having borderline malignancy; or
 - v) Having low malignancy potential.
2. All tumors of the prostate unless histologically classified as having a Gleason score of 7 or greater or having progressed to at least clinical TNM classification Stage 2b, T2N0M0.
3. Thyroid Cancer unless classified as T2N0M0 or greater.
4. Breast cancer unless classified as T2N0M0 or greater.
5. Any skin cancer unless classified as Malignant Melanoma Stage 2 or greater.

(b) **Heart Attack** – means the death of heart muscle due to inadequate blood supply that has resulted in evidence of myocardial infarction based on typical rise and gradual fall of Troponin and other biochemical markers of myocardial necrosis with at least one of the following:

1. Typical clinical symptoms (chest pain may or may not be present);
2. Characteristic electrocardiogram (ECG or EKG) changes; or
3. Coronary artery intervention.

The following are **NOT** included:

1. Angina;
2. Elevated biochemical cardiac markers as a result of intra-arterial cardiac procedures including, but not limited to, coronary angiography and coronary angioplasty, in the absence of new Q waves; or
3. ECG changes suggesting a prior myocardial infarction, which do not meet the definition of Heart Attack described above.

- (c) **Kidney Failure** – means chronic and end stage renal failure (failure of both kidneys to function effectively) diagnosed and managed by a nephrologist, as a result of which regular dialysis is necessary.
- (d) **Major Organ Transplant** – means the undergoing as a recipient of a transplant of bone marrow or a complete heart, kidney, liver, lung, small intestine, or pancreas, or inclusion on the United Network of Organ Sharing (UNOS) waiting list. Transplant of any other organs, parts of organs, tissues or cells is not covered.
- (e) **Stroke** – (cerebrovascular accident) means a definite diagnosis of an acute cerebrovascular event caused by intracranial thrombosis, hemorrhage, or embolism with acute onset of new neurological symptoms and new objective neurological deficits on clinical examination, persisting for at least 96 hours following the date of diagnosis. These new symptoms and deficits must be corroborated by diagnostic imaging testing.

The following are **NOT** included:

1. Transient ischemic attacks;
2. Brain damage due to an accident or injury, infection, vasculitis, and inflammatory disease;
3. Vascular disease affecting the eye or optic nerve;
4. Ischemic disorders of the vestibular system; or
5. Chronic Cerebrovascular insufficiency.

The Accelerated Benefit Payment will be determined as of each Election Date and will be paid in a lump sum. On the Election Date, the Accelerated Death Benefit Payment and the Policy Debt will be reduced by the Debt Repayment Amount.

After each Election Date, Monthly Deductions or Premiums will remain the same as described in the Policy and be based on the reduced Specified Amount or Face Amount.

While the Critical Illness Election is in effect, you cannot take withdrawals; increase or decrease the Specified Amount or change the Death Benefit Option. After any Election you may elect to obtain Policy Loans as described in the Policy.

Upon any Election all Endorsements and Riders attached to the Policy will continue to be effective subject to the terms and conditions of each Endorsement or Rider. After the Initial Election Date, additional Endorsement and Riders may be added to the Policy.

Election of Accelerated Death Benefits for Critical Illness is required within 12 months of incurred date. Only one Election can be made for each occurrence of a Specified Medical Condition.

If the Insured dies after you elect to receive Accelerated Death Benefits, but before the payment is made, the Election will be cancelled and the Death Benefit or Face Amount will be paid as described in the Policy.

As a valued customer of North American Company for Life and Health Insurance (the Company), We want to make sure You understand the unique features of the indexed life insurance Policy for which You have applied. The Policy may earn interest based on the movement of the selected Index(es), but will never credit less than zero percent. While earnings are based on the Index(es) You select, premiums are not invested in stocks, bonds or equity investments, and the Index growth does not include dividends.

The Policy for which you have applied is not registered as a security. Therefore, purchasing this indexed life insurance Policy is not the same as making an investment directly in the stock market. This summary is not intended to be a full description of the Policy. Please refer to your Policy when issued for complete details and definitions.

ALLOCATION CHOICES

You may direct Your money among the Fixed Account and/or any combination of the following Indexes:

1. The Standard & Poor's 500[®] Composite Stock Price Index (S&P 500[®])
2. The Nasdaq-100[®] Stock Price Index
3. The S&P MidCap 400[®]
4. The Russell 2000[®]
5. The EURO STOXX 50[®]
6. The Fidelity Multifactor Yield Index 5% ERSM

INDEX CREDITING METHODS

The interest credited to the Policy is calculated through the use of one of the following methods: the Annual Point-to-Point method, the Annual Point-to-Point with Spread method, the Monthly Point-to-Point method or the Multi-Index Annual Point-to-Point method. No Index Credits will be applied until the end of the Index Period and money withdrawn or surrendered prior to this time will not receive Index Credits.

When the **Annual Point-to-Point** method is chosen, the Index credit is determined by calculating the change between the Index Value on the first day of the Index Period and last day of the Index Period. The Index change is subject to the Index Cap Rate, Index Participation Rate, and Index Floor Rate. The Index Credit, if any, is credited and locked in at the end of the 12-month Index Period. The Annual Point-to-Point crediting method is available for the S&P 500[®], S&P MidCap 400[®], Russell 2000[®], EURO STOXX 50[®], NASDAQ-100[®], and the Fidelity Multifactor Yield Index 5% ER. The S&P 500[®] includes both a capped and an uncapped version of this crediting method.

When the **Annual Point-to-Point with Spread** method is chosen, the Index credit is determined by calculating the change between the Index Value on the first day of the Index Period and last day of the Index Period. The Index change is multiplied by the Index Participation Rate, and then the Index Spread Rate is deducted. The rate credited at the end of the Index Period will never be less than zero percent (the Index Floor Rate). The Index Credit, if any, is credited and locked in at the end of the 12-month Index Period. The Annual Point-to-Point with Spread crediting method is available for the S&P 500[®].

When the **Monthly Point-to-Point** method is chosen, the Index credit is determined by calculating the 12 Monthly Index Returns, which are determined by the change in the Index during the month multiplied by the Index Participation Rate. The Monthly Index Return can not be greater than the Monthly Index Cap Rate and it can be a negative number. At the end of the 12-month Index Period, the 12 preceding Monthly Index Returns are added together to determine the Index Credit, which is credited and locked in at the end of the 12-month Index Period. The rate credited at the end of the Index Period will never be less than zero percent (the Index Floor Rate), and will never be greater than 12 times the Monthly Index Cap Rate. The Monthly Point-to-Point crediting method is available for the S&P 500[®].

When the **Multi-Index Annual Point-to-Point** method is chosen, the Index credit is determined by calculating a Multi-Index change between the first day of the Index Period and the last day of the Index Period. The Multi-Index change uses the following three indices: S&P 500[®], EURO STOXX 50[®] and Russell 2000[®]. The annual point-to-point Index change from each of the three individual indexes determines the Multi-Index change. 50% of the best performing Index change plus 30% of the second best performing Index change plus 20% of the third best performing Index change equals the Multi-Index change. The Multi-Index change is subject to the Index Cap Rate, Index Participation Rate, and Index Floor Rate. The Index Credit, if any, is credited and locked in at the end of the 12-month Index Period.

Agent Instructions: Provide the Applicant a copy of this form; submit one copy to the Administrative Office and keep a copy for your records.

OTHER ELEMENTS AFFECTING INDEX CREDITS

- **Index Participation Rate** – the portion of the Index change that is used in the calculation of the Index Credit. This rate can be changed by the Company but can never be less than the minimum shown in the Policy.
- **Index Cap Rate** – the maximum interest rate that can be used in the calculation of the Index Credit. This rate can be changed by the Company but can never be less than the minimum shown in the Policy..
- **Index Floor Rate** – the minimum interest rate that can be used in the calculation of the Index Credit. This rate can be changed by the Company but can never be less than zero percent.
- **Index Spread Rate** - the interest rate that will be subtracted from the Index growth in the calculation of the Annual Point-to-Point with Spread Index Crediting Method.
- **Minimum Policy Account Value** – The rate credited to your Policy at the end of each 12-month Index Period will never be less than zero percent (the Index Floor Rate). However, we will also calculate a Minimum Policy Account Value that uses an interest rate of 2.5% in all Policy years for all premiums. If your Policy terminates (due to death, surrender, maturity, or lapse), we compare the Policy Account Value using actual interest credits to the Minimum Policy Account Value and use the greater value.
- **Surrender Charge** – the Surrender Charge is a charge made against the Policy Account Value in the event of a surrender of the Policy. The Surrender Charge varies by Policy Year and is based on the Sex, Issue Age and Premium Class of the Insured. Surrender Charges apply to the initial Specified Amount. Additional Surrender Charges will apply to any increase in Specified Amount and any decrease in Specified Amount or Withdrawal will reduce the Surrender Charge. Surrender Charges vary by product.
- **Transfers from an Index Selection** – transfers out of an Index Selection can only occur at the end of a 12-month Index Period.

HIV TEST INFORMED CONSENT FORM

Insurer: NORTH AMERICAN COMPANY
FOR LIFE AND HEALTH INSURANCE
One Sammons Plaza
Sioux Falls, SD 57193

Examiner: _____
(Name and _____
Address) _____

BACKGROUND

Acquired Immunodeficiency Syndrome (AIDS) is a life-threatening disorder of the immune system. It is caused by a virus called HIV. The virus is spread by sexual contact with an infected person, by exposure to infected blood (as in needle sharing during intravenous drug use or, rarely, as a result of a blood transfusion), or from an infected mother to her newborn infant.

To evaluate your eligibility for insurance or insurance benefits, it is requested that you provide a sample of your body fluid or other specimen for testing and analysis. One of the tests is to determine the presence of antibodies to the HIV virus. This test is actually a series of tests performed upon your body fluid or other specimen sample by a medically accepted procedure which is extremely reliable. The testing will be performed by a licensed laboratory.

DISCLOSURE OF TEST RESULTS

All test results will be treated confidentially. The results of the test will be reported to the insurer named above. The results also may be reported to its affiliates, reinsurer, or contractors in connection with insurance you have or for which you have applied.

In addition, if your HIV antibody test is abnormal (positive), the insurer may request an additional sample, as necessary. If the insurer is a member of the Medical Information Bureau (MIB) and you choose to decline that request, the insurer will report a generic code which specifies only that a test has been ordered and not received. If the final test result for HIV antibodies is other than normal, a generic code signifying a non-specific blood abnormality may be made known to the Medical Information Bureau (MIB) as described in the notice given you at the time of application. The MIB is a membership organization of life and health insurance companies which operates as an information exchange on behalf of its members. If you apply to another MIB member company for life or health insurance coverage, or make a claim for benefits to such a company, the MIB, upon request, will supply the information in its file to that member. The fact that the test has been done and the results of the test will not be otherwise disclosed except as may be required by law or as authorized by you.

TEST RESULTS

Positive Test Results. While positive test results do not necessarily mean that you have AIDS, they do mean that you are at serious risk of developing AIDS or AIDS-related conditions. You may be infected with HIV and infectious to others. You should seek medical follow-up with your personal health care provider. The insurer will contact you for the name of the health care provider to whom you may want your test results disclosed.

Test Accuracy. HIV test results are not 100 percent accurate. Possible errors include:

- (a) False positives: The test gives a positive result, even though you are not infected. This happens only rarely and is more common in persons who have not engaged in high risk behaviors. Retesting should be done to help confirm the validity of a positive test.
(b) False negatives: The test gives a negative result, even though you are infected with HIV. This is most likely to happen in recently infected persons; it takes at least 4 to 12 weeks for a positive test result to develop after a person is infected, and may take as long as 6 to 12 months.

RISKS FROM HAVING THE TESTS

A positive test result may cause you significant anxiety. It also will adversely affect your insurance application and may result in uninsurability for life, health, or disability insurance for which you may apply in the future.

YOU HAVE THE RIGHT TO ASK QUESTIONS (EITHER ORALLY OR IN WRITING) AND OBTAIN FURTHER INFORMATION

If you have any questions relating to AIDS, the HIV test and the consequences of being tested or not being tested, you are entitled to answers to those questions by the person offering the test or other knowledgeable person before you agree to testing.

OTHER SOURCES OF INFORMATION

For more information about AIDS and the HIV test, you may call the Maine Bureau of Health at (207) 287-3747. You may also call the Maine AIDS Hotline at 1-800-851-AIDS.

I have read and I understand this Notice of AIDS Virus (HIV) Antibody Testing and Consent for Testing. For my information, I have been given written material about AIDS. I voluntarily consent to the withdrawal of body fluid or other specimen from me, the testing of my body fluid or other specimen for HIV antibodies, and the disclosure of the test results as described above.

BUYING LIFE INSURANCE

When you buy life insurance, you want a policy which fits your needs without costing too much.

First, decide how much you need-and for how long-and what you can afford to pay. Keep in mind the major reason you buy life insurance is to cover the financial effects of unexpected or untimely death. Life insurance can also be one of many ways you plan for the future.

Next, learn what kinds of policies will meet your needs and pick the one that best suits you.

Then, choose the combination of policy premium and benefits that emphasizes protection in case of early death, or benefits in case of long life, or a combination of both.

A good life insurance producer, consultant, or company will be able and willing to help you with each of these shopping steps.

If you are going to make a good choice when you buy life insurance, you need to understand which kinds are available. If one kind does not seem to fit your needs, ask about the other kinds which are described in this guide. If you feel that you need more information than is given here, you may want to check with a life insurance producer, consultant, or company or books on life insurance in your public library.

What About the Policy You Have Now?

If you are thinking about dropping a life insurance policy, here are some things you should consider:

1. If you decide to replace your policy, don't cancel your old policy until you have received the new one. You then have a minimum period to review your new policy and decide if it is what you wanted.
2. It may be costly to replace a policy. Much of what you paid in the early years of the policy you have now, paid for the company's cost of selling and issuing the policy. You may pay this type of cost again if you buy a new policy.
3. Ask your tax advisor if dropping your policy could affect your income taxes.
4. If you are older or your health has changed, premiums for the new policy will often be higher. You will not be able to buy a new policy if you are not insurable.
5. You may have valuable rights and benefits in the policy you now have that are not in the new one.
6. If the policy you have now no longer meets your needs, you may not have to replace it. You might be able to change your policy or add to it to get the coverage or benefits you now want.
7. At least in the beginning of a policy may pay no benefits for some causes of death covered in the policy you have now.

In all cases, if you are thinking of buying a new policy, check with the agent or company that issued you the one you have now. When you bought your old policy, you may have seen an illustration of the benefits of your policy. Before replacing your policy, ask your agent or company for an updated illustration. Check to see how the policy has performed and what you might expect in the future, based on the amounts the company is paying now.

How Much Do You Need?

Here are some questions to ask yourself:

- * How much of the family income do I provide?
- * If I were to die early, how would my survivors, especially my children, get by?
- * Does anyone else depend on me financially, such as a parent, grandparent, brother or sister?
- * Do I have children for whom I'd like to set aside money to finish their education in the event of my death?
- * How will my family pay final expenses and repay debts after my death?
- * Do I have family members or organizations to whom I would like to leave money?
- * Will there be estate taxes to pay after my death?
- * How will inflation affect future needs?

As you figure out what you have to meet these needs, count the life insurance you have now, including any group insurance where you work or veteran's insurance. Don't forget Social Security and pension plan survivor's benefits. Add other assets you have: savings, investments, real estate and personal property. Which assets would your family sell or cash in to pay expenses after your death?

Choosing the Right Kind

All life insurance policies agree to pay an amount of money if you die. But all policies are not the same. There are two basic kinds of life insurance.

1. Term insurance
2. Cash Value Life insurance

Term Insurance

Term insurance is death protection for a "term" of one or more years. Death benefits will be paid only if you die within that term of years. Term insurance generally provides the largest immediate death protection for your premium dollar.

Some term insurance policies are "renewable" for one or more additional terms even if your health has changed. Each time you renew the policy for a new term premiums will be higher. You should

check the premiums at older ages and the length of time the policy can be continued.

Some term insurance policies are also "convertible." This means that before the end of the conversion period, you may trade the term policy for a cash value policy even if you are not in good health. Premiums for the new policy will be higher than you have been paying for the term insurance.

Cash Value Life Insurance

Cash Value Life Insurance is a type of insurance where the premiums charged are higher at the beginning than they would be for the same amount of term insurance. The part of the premium that is not used for the cost of insurance is invested by the company and builds up a cash value that may be used in a variety of ways. You may borrow against a policy's cash value by taking a policy loan. If you don't pay back the loan and the interest on it, the amount you owe will be subtracted from the benefits when you die, or from the cash value if you stop paying premiums and take out the remaining cash value. You can also use your cash value to keep insurance protection for a limited time or to buy a reduced amount without having to pay more premiums. You also can use the cash value to increase your income in retirement or to help pay for needs such as a child's tuition without canceling the policy. However, to build up this cash value, you must pay higher premiums in the earlier years of the policy. Cash value life insurance may be one of several types; whole life, universal life and variable life are all types of cash value insurance.

Whole life insurance gives death protection for as long as you live. The most common type is called "straight life" or "ordinary life" insurance, for which you pay the same premiums for as long as you live. These premiums can be several times higher than you would pay initially for the same amount of term insurance. But they are smaller than the premiums you would eventually pay if you were to keep renewing a term insurance policy until your later years.

Some whole life policies let you pay premiums for a shorter period such as 20 years, or until age 65. Premiums for these policies are higher than for ordinary life insurance since the premium payments are squeezed into a shorter period.

Universal Life Insurance is a kind of flexible policy that lets you vary your premium payments. You can also adjust the face amount of your coverage. Increases may require proof that you qualify for the new death benefit. The premiums you pay (less expense charges) go into a policy account that earns interest. Charges are deducted from the account. If your yearly premium payment plus the interest your account earns is less than the charges, your account value will become lower. If it

keeps dropping, eventually your coverage will end. To prevent that, you may need to start making premium payments, or increase your premium payments, or lower your death benefits. Even if there is enough in your account to pay the premiums, continuing to pay premiums yourself means that you build up more cash value.

Variable Life Insurance is a kind of insurance where the death benefits and cash values depend on the investment performance of one or more separate accounts, which may be invested in mutual funds or other investments allowed under the policy. Be sure to get the prospects from the company when buying this kind of policy and STUDY IT CAREFULLY. You will have higher death benefits and cash value if the underlying investments do well. Your benefits and cash value will be lower or may disappear if the investments you chose didn't do as well as you expected. You may pay an extra premium for a guaranteed death benefit.

Finding a Good Value in Life Insurance

After you have decided which kind of life insurance is best for you, compare similar policies from different companies to find which one is likely to give you the best value for your money. A simple comparison of the premiums is not enough. There are other things to consider. For example:

- * Do premiums or benefits vary from year to year?
- * How much do the benefits build up in the policy?
- * What part of the premiums or benefits is not guaranteed?
- * What is the effect of interest on money paid and received at different times on the policy?

Once you have decided which type of policy to buy, you should compare similar policies from several companies. Life insurance agents or companies should give you either a life insurance illustration, a cost comparison index, or both. Life insurance illustrations and cost comparison indexes are described below.

Remember that no one company offers the lowest cost at all ages and for all kinds and amounts of insurance. You should also consider other factors:

- * How quickly does the cash value grow? Some policies have low cash values in the early years that build quickly later on. Other policies have a more level cash value build-up. A year-by-year display of values and benefits can be very helpful. (The producer or company will give you a policy summary or an illustration that will show benefits and premiums for selected years.)

- * Are there special policy features that particularly suit your needs?
- * How are nonguaranteed values calculated? For example, interest rates are important in determining policy returns. In some companies increases reflect the average interest earnings on all of that company's policies regardless of when issued. In others, the return for policies issued in a recent year, or a group of years, reflects the interest earnings on that group of policies; in this case, amounts paid are likely to change more rapidly when interest rates change.

Life Insurance Illustrations

You may be thinking of buying a policy where cash values, death benefits, dividends or premiums may vary based on events or situations the company does not guarantee (such as interest rates). If so, you may get an illustration from the producer or company that helps explain how the policy works. The illustration will show how the benefits that are not guaranteed will change as interest rates and other factors change. The illustration will show you what the company guarantees. It will also show you what could happen in the future. Remember that nobody knows what will happen in the future. You should be ready to adjust your financial plans if the cash value doesn't increase as quickly as shown in the illustration. You will be asked to sign a statement that says you understand that some of the numbers in the illustration are not guaranteed.

Cost Comparison Indexes

If you are provided cost comparison indexes, there will be two types:

Life Insurance Surrender Cost Index. This index is useful if you consider the level of the cash values to be of primary importance to you. It helps you compare costs if at some future point in time, such as 10 or 20 years, you were to surrender the policy and take its cash value.

Life Insurance Net Payment Cost Index. This index is useful if your main concern is the benefits that are to be paid at your death and if the level of cash values is of secondary importance to you. It helps you compare costs at some future point in time, such as 10 or 20 years, if you continue paying premiums on your policy and do not take its cash value.

How Do I Use Cost Indexes?

The most important thing to remember when using cost indexes is that a policy with a small index number is generally a better buy than a comparable policy with a larger index number. The following rules are also important:

- Cost comparisons should only be made between similar plans of life insurance. Similar plans are those which provide essentially the same basic benefits and require premium payments for approximately the same period of time. The closer policies are to being identical, the more reliable the cost comparison will be.
- Cost comparison indexes reflect only guaranteed benefits and premiums. If the policy has non-guaranteed elements such as dividends, the actual cost may turn out to be less than what the index reflects.
- * Compare index numbers only for the kind of policy, for your age and for the amount of insurance you intend to buy. Since no one company offers the lowest cost for all amounts of insurance, it is important that you get the indexes for the actual policy, age and amount which you intend to buy. Just because one company's policy is a good buy for a particular age and amount, you should not assume that all of that company's policies are equally good buys.
- * Small differences in index numbers could be offset by other policy features, or differences in the quality of service you may expect from the company or its agent. Therefore, when you find small differences in cost indexes, your choice should be based on something other than cost.
- * In any event, you will need other information on which to base your purchase decision. Be sure you can afford the premiums, and that you understand its cash values, dividends and death benefits. You should also make a judgment on how well the life insurance company or agent will provide service in the future to you as a policyholder.
- * These life insurance cost indexes apply to new policies and should not be used to determine whether you should drop a policy you have already owned for awhile, in favor of a new one. If such a replacement is suggested, you should ask for information from the company which issued the old policy before you take action.

**IMPORTANT NOTICE:
REPLACEMENT OF LIFE INSURANCE OR ANNUITIES**

This document must be signed by the applicant and the producer, if there is one, and a copy left with the applicant.

You are contemplating the purchase of a life insurance policy or annuity contract. In some cases, this purchase may involve discontinuing or changing an existing policy or contract. If so, a replacement is occurring. Financed purchases are also considered replacements.

A *replacement* occurs when a new policy or contract is purchased and, in connection with the sale, you discontinue making premium payments on the existing policy or contract, or an existing policy or contract is surrendered, forfeited, assigned to the replacing insurer, or otherwise terminated or used in a financed purchase.

A *financed purchase* occurs when the purchase of a new policy involves the use of funds obtained by the withdrawal or surrender of or by borrowing some or all of the policy values, including accumulated dividends, of an existing policy, to pay all or part of any premium or payment due on the new policy. A financed purchase is a replacement.

You should carefully consider whether a replacement is in your best interest. You will pay acquisition costs and there may be surrender costs deducted from your policy or contract. You may be able to make changes to your existing policy or contract to meet your insurance needs at less cost. A financed purchase will reduce the value of your existing policy and may reduce the amount paid upon the death of the insured.

We want you to understand the effects of replacements before you make your purchase decision and ask that you answer the following questions and consider the questions on the back of this form.

1. Are you considering discontinuing making premium payments, surrendering, forfeiting, assigning to the insurer, or otherwise terminating your existing policy or contract? YES NO
2. Are you considering using funds from your existing policies or contracts to pay premiums due on the new policy or contract? YES NO

If you answered "yes" to either of the above questions, list each existing policy or contract you are contemplating replacing (include the name of the insurer, the insured or annuitant and the policy or contract number if available) and whether each policy or contract will be replaced or used as a source of financing:

INSURER NAME	CONTRACT OR POLICY #	INSURED OR ANNUITANT	REPLACED (R) OR FINANCING (F)
1.			
2.			
3.			

Make sure you know the facts. Contact your existing company or its agent for information about the old policy or contract. If you request one, an in-force illustration, policy summary or available disclosure documents must be sent to you by the existing insurer. Ask for and retain all sales material used by the agent in the sales presentation. Be sure that you are making an informed decision.

The existing policy or contract is being replaced because _____.

I certify that the responses herein are, to the best of my knowledge, accurate:

Applicant's Signature and Printed Name

Producer's Signature and Printed Name

I do not want this notice read aloud to me. _____ (Applicants must initial only if they do not want the notice read aloud.)

Producer's Statement

I certify that only sales materials approved by North American Company for Life and Health Insurance were used in conjunction with this transaction, and copies of all sales materials including this Important Notice were left with the applicant. If applicable, electronically presented sales materials shall be provided in printed form to the applicant no later than at the time of policy or contract delivery.

Producer's Signature and Printed Name

A replacement may not be in your best interest, or your decision could be a good one. You should make a careful comparison of the costs and benefits of your existing policy or contract and the proposed policy or contract. One way to do this is to ask the company or agent that sold you your existing policy or contract to provide you with information concerning your existing policy or contract. This may include an illustration of how your existing policy or contract is working now and how it would perform in the future based on certain assumptions. Illustrations should not, however, be used as a sole basis to compare policies or contracts. You should discuss the following with your agent to determine whether replacement or financing your purchase makes sense:

PREMIUMS:

- Are they affordable?
- Could they change?
- You're older--are premiums higher for the proposed new policy?
- How long will you have to pay premiums on the new policy? On the old policy?

POLICY VALUES:

- New policies usually take longer to build cash values and to pay dividends.
- Acquisition costs for the old policy may have been paid; you will incur costs for the new one.
- What surrender charges do the policies have?
- What expense and sales charges will you pay on the new policy?
- Does the new policy provide more insurance coverage?

INSURABILITY:

- If your health has changed since you bought your old policy, the new one could cost you more, or you could be turned down.
- You may need a medical exam for a new policy.
- Claims on most new policies for up to the first two years can be denied based on inaccurate statements.
- Suicide limitations may begin anew on the new coverage.

IF YOU ARE KEEPING THE OLD POLICY AS WELL AS THE NEW POLICY:

- How are premiums for both policies being paid?
- How will the premiums on your existing policy be affected?
- Will a loan be deducted from death benefits?
- What values from the old policy are being used to pay premiums?

IF YOU ARE SURRENDERING AN ANNUITY OR INTEREST SENSITIVE LIFE PRODUCT:

- Will you pay surrender charges on your old contract?
- What are the interest rate guarantees for the new contract?
- Have you compared the contract charges or other policy expenses?

OTHER ISSUES TO CONSIDER FOR ALL TRANSACTIONS:

- What are the tax consequences of buying the new policy?
- Is this a tax-free exchange? (See your tax advisor.)
- Is there a benefit from favorable "grandfathered" treatment of the old policy under the federal tax code?
- Will the existing insurer be willing to modify the old policy?
- How does the quality and financial stability of the new company compare with your existing company?

RIGHT TO EXAMINE POLICY – It is important to us that you are satisfied with your policy and that it meets your insurance goals. Read it carefully. If you are not satisfied with it, you may return it to our Home Office or to your agent within 30 days after you received it. We will then void it and refund all premiums paid .

1. The owner hereby assigns and transfers all rights, title, and interest in the above policy to North American Company for Life and Health Insurance (hereinafter "the Company"). The above company shall be relieved from any and all liability under these original contract(s) upon their cash surrender.
2. The undersigned represent and warrant that no person, firm, or corporation has a legal or equitable interest in the policy, except the undersigned, and that no proceedings of either a legal or equitable nature have been instituted or are pending against the undersigned.
3. The undersigned intend that this assignment be part of an exchange of insurance policies or annuities under Internal Revenue Code Section 1035. The undersigned are aware that the Company intends to surrender this policy for its net cash surrender value and specifically authorize and approve of the Company surrendering the policy for its net cash surrender value, without in any way limiting the rights transferred under this assignment. **The undersigned represent and agree that the Company is furnishing this form and is participating in this transaction at the undersigned's request and as an accommodation to the undersigned. 5. In addition to, but without limitation of all rights, title and interests assigned under this assignment, the undersigned specifically assigns the above policy as collateral security for the amount of the policy's cash surrender value with the right of the Company to collect either the proceeds at death or at maturity, or the cash surrender value of the policy paying the balance, if any, after payment of such cash surrender value, to the persons entitled thereto under the policy. If this transaction is subject to a community property interest, we strongly recommend that You obtain Your spouse's signature on this application to document his/her consent to this transaction. States that recognize community property interests in property held by married persons include Alaska, Arizona, California, Idaho, Louisiana, Nevada, New Mexico, Texas, Washington and Wisconsin. You understand and agree that the Company may presume that no community property exists if You have not obtained your spouse's signature below. Further, you understand and agree that the Company has no duty to inquire further about any such community property interest. As a result, You agree to indemnify and hold the Company harmless from any consequences relating to community property interests and this transaction. Please note that the term "spouse" includes domestic partner or other partner as permitted by civil union, domestic partnership or similar law.
6. The owner will continue to pay the premiums necessary to keep the existing policy(ies) in force until the 1035 proceeds are released from the current insurer. The Company bears no responsibility for the payment of any premiums. Failure to pay premiums on the existing policy(ies) may create a loan, or reduce or eliminate surrender proceeds or cause the policy(ies) to lapse. The Company will not carry over to the new policy an outstanding loan on the old policy.
7. Any policy loan that exists prior to the exchange and is discharged may constitute the receipt of income which is taxable gain to the extent of the loan (reg. 1.1031 (b)-1(c)). We recommend you consult with and rely on your own qualified legal or tax advisor.
8. If the new application for insurance is canceled, declined, or postponed by the Company for any reason, the Company will release the owner from the assignment executed as part of this transaction.
9. The cash value of the existing assigned policy shall not be considered part of the premium consideration for the new policy until the Company actually receives the policy's net surrender value. The existing insurer may defer payment of the surrender proceeds of the existing policy(ies) in accordance with applicable policy provisions. Accordingly, the undersigned understand and agree that the Company has no control over, and assumes no responsibility for, the surrender processing of another company and the timeliness of the receipt of the 1035 exchange values.
10. The Company's maximum liability prior to the actual issuance and delivery of the new contract shall not exceed \$1,000,000 (\$100,000 in Kansas), as documented in the Temporary Insurance Agreement (TIA). If coverage is in effect under the TIA, the company's maximum liability shall not exceed \$1,000,000 (\$100,000 in Kansas).
