If a conditional receipt was issued along with this authorization, initial premium will be withdrawn/cashed upon receipt of the application by the Company. Unless a conditional receipt was issued along with this authorization, I/we agree this authorization shall not become effective for payment of the initial premium unless and until after a contract is issued and all other conditions of coverage set forth in the application have been met.

As a convenience to me, I request and authorize the Company named above to make withdrawals, by draft or electronic transfer, from my account with the financial institution named for: (1) premiums becoming due (including premiums which have increased from the initial payment amount under the terms of the policy(ies) or due to changes made to the policy(ies)); (2) other amounts due under the policy(ies) listed above (including any amendments, endorsements, riders, or amounts past due); (3) loan payments if authorized above or later agreed to by me; and/or (4) such other payments as I may authorize the Company to make. I request that this authorization, unless previously revoked, continue to apply to any conversion, renewal, or change later made to the policy(ies). I understand that if a withdrawal is not honored for payment by the financial institution, with or without cause and whether intentionally or inadvertently, and the premiums are not otherwise paid within the grace period allowed by a policy, the policy may terminate.

As a convenience to me, I hereby request the financial institution named above (and its successors and assigns) to accept and honor the draft or transfer withdrawals made by the Company from my account. I agree the financial institution shall be fully protected in honoring such draft or transfer.

This authorization shall take effect when recorded and processed by the Company and financial institution and will remain in effect until I notify the Company or the financial institution in writing to terminate and the Company or financial institution has a reasonable time to act on the termination request. I hereby terminate any prior authorization of the Company to initiate charges to this account for the above policy(ies) effective the date on which the initial charge is made under this authorization. I also understand and agree that if a withdrawal is not honored by the financial institution for any reason, the Company may cease attempting to make withdrawals through the use of this authorization.

BUYING LIFE INSURANCE

When you buy life insurance, you want a policy which fits your needs without costing too much.

First, decide how much you need – and for how long – and what you can afford to pay. Keep in mind the major reason you buy life insurance is to cover the financial effects of unexpected or untimely death. Life insurance can also be one of many ways you plan for your future.

Next, learn what kinds of policies will meet your needs and pick the one that best suits you.

Then, choose the combination of policy premium and benefits that emphasizes protection in case of early death, or benefits in case of long life, or a combination of both.

A good life insurance producer, consultant, or company will be able and willing to help you with each of these shopping steps.

If you are going to make a good choice when you buy life insurance, you need to understand which kinds are available. If one kind does not seem to fit your needs, ask about the other kinds which are described in this guide. If you feel that you need more information than what is given here, you may want to check with a life insurance producer, consultant, or company or books on life insurance in your public library.

WHAT ABOUT A POLICY YOU HAVE NOW?

If you are thinking about dropping a life insurance policy, here are some things you should consider:

- If you decide to replace your policy, don't cancel your old policy until you have received the new one. You then have a minimum period to review your new policy and decide if it is what you wanted.
- It may be costly to replace a policy. Much of what you paid in the early years of the policy you have now, paid for the company's cost of selling and issuing the policy. You may pay this type of cost again if you buy a new policy.
- Ask your tax advisor if dropping your policy could affect your income taxes.
- If you are older or your health has changed, premiums for the new policy will often be higher. You will not be able to buy a new policy if you are not insurable.
- You may have valuable rights and benefits in the policy you now have that are not in the new one.
- If the policy you have now no longer meets your needs, you may not have to replace it. You might be able to change your policy or add to it to get the coverage or benefits you now want.
- At least in the beginning, a policy may pay no benefits for some cause of death covered in the policy you have now.

In all cases, if you are thinking of buying a new policy, check with the agent or company that issued you the one you have now. When you bought your old policy, you may have seen an illustration of the benefits of your policy. Before replacing your policy, ask your agent or company for an updated illustration. Check to see how the policy has performed and what you might expect in the future, based on the amounts the company is paying now.

HOW MUCH DO YOU NEED?

Here are some questions to ask yourself:

- How much of the family income do I provide? If I were to die early, how would my survivors, especially my children, get by? Does anyone else depend on me financially, such as a parent, grandparent, brother or sister?
- Do I have children for whom I'd like to set aside money to finish their education in the event of my death?
- How will my family pay final expenses and repay debts after my death?
- Do I have family members or organizations to whom I would like to leave money?
- Will there be estate taxes to pay after my death?
- How will inflation affect future needs?

As you figure out what you have to meet these needs, count the life insurance you have now, including any group insurance where your work or veteran's Insurance. Don't forget Social Security and pension plan survivor's benefits. Add other assets you have: savings, investments, real estate and personal property. Which assets would your family sell or cash in to pay expenses after your death?

CHOOSING THE RIGHT KIND

All life insurance policies agree to pay an amount of money if you die. But all policies are not the same. There are two basic kinds of life insurance.

1. Term insurance
2. Cash Value Life Insurance

Term Insurance

Term insurance is death protection for a "term" of one or more years. Death benefits will be paid only if you die within that term of years. Term insurance generally provides the largest immediate death protection for your premium dollar.

Some term insurance policies are "renewable" for one or more additional terms even if your health has changed. Each time you renew the policy for a new term premiums will be higher. You should check the premiums at older ages and the length of time the policy can be continued.

Some term insurance policies are also "convertible". This means that before the end of the conversion period, you may trade the term policy for a cash value policy even if you are not in good health. Premiums for the new policy will be higher than you have been paying for the term insurance.

Cash Value Life Insurance

Cash Value Life Insurance is a type of insurance where the premium charges are higher at the beginning than they would be for the same amount of Term Insurance. The part of the premium that is not used for the cost of insurance is invested by the company and builds up a cash value that may be used in a variety of ways. You may borrow against a policy's cash value by taking a policy loan. If you don't pay back the loan and interest on it, the amount you owe will be subtracted from the benefits when you die, or from the cash value if you stop paying premiums and take out the remaining cash value. You can also use your cash value to keep insurance protection for a limited time or to buy a reduced amount without have to pay more premiums. You can also use the cash value to increase your income in retirement or to help pay for needs such as a child's tuition without canceling the policy. However, to build up this cash value, you must pay higher premiums in the earlier years of the policy. Cash Value Life Insurance may be one of several types: Whole Life, Universal Life and Variable Life are all types of Cash Value Insurance.

Whole Life Insurance

Whole life insurance gives death protection for as long as you live. The most common type is called "straight life" or "ordinary life" insurance, for which you pay the same premiums for as long as you live. These premiums can be several times higher than you would pay initially for the same amount of term insurance. But they are smaller than the premiums you would eventually pay if you were to keep renewing a term insurance policy until your later years.

Some whole life policies let you pay premiums for a shorter period such as 20 years, or unlit age 65. Premiums for those policies are higher than for ordinary life insurance since the premium payments are squeezed into a shorter period.

Universal Life Insurance is a kind of flexible policy that lets you vary your premium payments. You can also adjust the face amount of your coverage. Increases may require proof that you qualify for the new death benefit. The premiums you pay (less expense charges) go into a policy account that earns interest. Charges are deducted from the account. If your yearly premium payment plus the interest your account earns is less than the charges, your account value will become lower. If it keeps dropping, eventually your coverage will end. To prevent that, you may need to start making premium payments, or increase your premium payments, or lower your death benefits. Even if there is enough in your account to pay the premiums, continuing to pay premiums yourself means that you build up more cash value.

Variable Life Insurance is a kind of insurance where the death benefits and cash values depend on the investment performance of one or more separate accounts, which may be invested in mutual funds or other investments allowed under the policy. Be sure to get the prospectus from the company when buying this kind of policy and STUDY IT CAREFULLY. You will have higher death benefits and cash value if the underlying investments do well. You benefits and cash value will be lower or may disappear if the investments you chose didn't do as well as you expected. You may pay an extra premium for a guaranteed death benefit.

FINDING A GOOD VALUE IN LIFE INSURANCE

After you have decided which kind of life insurance is best for you, compare similar policies from different companies to find which one is likely to give you the best value for your money. A simple comparison of the premiums is not enough. There are other things to consider. For example:

- Do premiums or benefits vary from year to year?
- How much do the benefits build up in the policy?
- What part of the premiums or benefits is not guaranteed?
- What is the effect of interest on money paid and received at different times on the policy?

Once you have decided which type of policy to buy, you should compare similar policies from several companies. Life insurance agents or companies should give you either a life insurance illustration, a cost comparison index, or both. Life insurance illustrations and cost comparison indexes are described below. Remember that no one company offers the lowest cost at *all* ages for *all* kinds and amounts of insurance. You should also consider other factors:

- How quickly does the cash value grow? Some policies have low cash values in the early years that build quickly later on. Other policies have a more level cash value build-up. A year-by-year display of values and benefits can be very helpful. (The producer or company will give you a policy summary or an illustration that will show benefits and premiums for selected years.)
- Are there special policy features that particularly suit your needs?
- How are non-guaranteed values calculated? For example, interest rates are important in determining policy return. In some companies increases reflect the average interest earnings on all of the company's policies regardless of when issued. In others, the return for policies issued in a recent year, or group of years, reflects the interest earnings on that group of policies; in this case, amounts paid are likely to change more rapidly when interest rates change.

LIFE INSURANCE ILLUSTRATIONS

You may be thinking of buying a policy where cash values, death benefits, dividends or premiums may vary based on events or situations the company does not guarantee (such as interest rates). If so, you may get an illustration from the producer or company that helps explain how the policy works. The illustration will show how the benefits that are not guaranteed will change as interest rates and other factors change. The illustration will show you what the company guarantees. It will also show you what *could* happen in the future. Remember that nobody knows what will happen in the future. You should be ready to adjust your financial plans if the cash value doesn't increase as quickly as shown in the illustration. You will be asked to sign a statement that says you understand that some of the numbers in the illustration are not guaranteed.

COST COMPARISON INDEXES

If you are provided cost comparison indexes, there will be two types:

Life Insurance Surrender Cost Index. This index is useful if you consider the level of the cash values to be of primary importance to you. It helps you compare costs if at some future point in time, such as 10 or 20 year, you were to surrender the policy and take its cash value.

Life Insurance Net Payment Cost Index. This index is useful if your main concern is the benefits that are to be paid at your death and if the level of cash values is of secondary importance to you. It helps you compare costs at some future point in time, such as 10 or 20 year, if you continue paying premiums on your policy and do not take its cash value.

HOW DO I USE COST INDEXES?

The most important thing to remember when using cost indexes is that a policy with a small index number is generally a better buy than a comparable policy with a larger index number. The following rules are also important:

Cost comparisons should only be made between similar plans of insurance. Similar plans are those which provide essentially the same basic benefits and require premium payments for approximately the same period of time. The closer policies are to being identical, the more reliable the cost comparison will be.

Cost comparison indexes reflect only guaranteed benefits and premiums. If the policy has non-guaranteed elements such as dividends, the actual cost may turn out to be less than what the index reflects.

Compare index numbers only for the kind of policy, for your age and for the amount you intend to buy. Since no one company offers the lowest cost for all amounts of insurance, it is important that you get the indexes for the actual policy, age and amount which you intend to buy. Just because one company's policy is a good buy for a particular age and amount, you should not assume that all of that company's policies are equally good buys.

Small differences in index numbers could be offset by other policy features, or differences in the quality of service you may expect from the company or its agent. Therefore, when you find small differences in cost indexes, your choice should be based on something other than cost.

In any event, you will need other information on which to base your purchase decision. Be sure you can afford the premiums, and that you understand its cash values, dividends and death benefits. You should also make a judgment on how well the life insurance company or agent will provide service in the future to you as a policyholder.

These life insurance cost indexes apply to new policies and should not be used to determine whether you should drop a policy you already owned for a while, in favor of a new one. If such a replacement is suggested, you should ask for information from the company which issued the old policy before you take action.

Important Notice
Replacement of
Life Insurance or Annuities

Transamerica Life Insurance Company

Home Office: 6400 C Street SW, Cedar Rapids, IA 52499

This document must be signed by the applicant and the producer, if there is one, and a copy left with the applicant.

You are contemplating the purchase of a life insurance policy or annuity contract. In some cases this purchase may involve discontinuing or changing an existing policy or contract. If so, a replacement is occurring. Financed purchases are also considered replacements.

A replacement occurs when a new policy or contract is purchased and, in connection with the sale, you discontinue making premium payments on the existing policy or contract, or an existing policy or contract is surrendered, forfeited, assigned to the replacing insurer, or otherwise terminated or used in a financed purchase.

A financed purchase occurs when the purchase of a new life insurance policy involves the use of funds obtained by the withdrawal or surrender of or by borrowing some or all of the policy values, including accumulated dividends, of an existing policy, to pay all or part of any premium or payment due on the new policy. A financed purchase is a replacement.

You should carefully consider whether a replacement is in your best interest. You will pay acquisition costs and there may be surrender costs deducted from your policy or contract. You may be able to make changes to your existing policy or contract to meet your insurance needs at less cost. A financed purchase will reduce the value of your existing policy and may reduce the amount paid upon the death of the insured.

We want you to understand the effects of replacements before you make your purchase decision and ask that you answer the following questions and consider the questions on the back of this form.

1. **Are you considering discontinuing making premium payments, surrendering, forfeiting, assigning to the insurer, or otherwise terminating your existing policy or contract? ___ YES ___ NO**

2. **Are you considering using funds from your existing policies or contracts to pay premiums due on the new policy or contract? ___ YES ___NO**

If you answered "yes" to either of the above questions, list each existing policy or contract you are contemplating replacing (include the name of the insurer, the insured or annuitant, and the policy number or contract number if available) and whether each policy or contract will be replaced or used as a source of financing:

INSURER NAME	CONTRACT OR POLICY #	INSURED	REPLACED (R) OR FINANCING (F)
1.			
2.			
3.			

Make sure you know the facts. Contact your existing company or its agent for information about the old policy or contract. [If you request one, an in-force illustration, policy summary or available disclosure documents must be sent to you by the existing insurer.] Ask for and retain all sales material used by the agent in the sales presentation. Be sure that you are making an informed decision.

The existing policy or contract is being replaced because _____.
I certify that the responses herein are, to the best of my knowledge, accurate:

_____ _____
Applicant's Signature and Printed Name Date

_____ _____
Producer's Signature and Printed Name Date

_____ **I do not want this notice read aloud to me. (Applicants must initial only if they do not want the notice read aloud.)**

A replacement may not be in your best interest, or your decision could be a good one. You should make a careful comparison of the costs and benefits of your existing policy or contract and the proposed policy or contract. One way to do this is to ask the company or agent that sold you your existing policy or contract to provide you with information concerning your existing policy or contract. This may include an illustration of how your existing policy or contract is working now and how it would perform in the future based on certain assumptions. Illustrations should not, however, be used as a sole basis to compare policies or contracts. You should discuss the following with your agent to determine whether replacement or financing your purchase makes sense:

PREMIUMS:

- Are they affordable?
- Could they change?
- You're older – are premiums higher for the proposed new policy?
- How long will you have to pay premiums on the new policy? On the old policy?

POLICY VALUES:

- New policies usually take longer to build cash values and to pay dividends.
- Acquisition costs for the old policy may have been paid; you will incur costs for the new one.
- What surrender charges do the policies have?
- What expenses and sales charges will you pay on the new policy?
- Does the new policy provide more insurance coverage?

INSURABILITY:

- If your health has changed since you bought your old policy, the new one could cost you more, or you could be turned down.
- You may need a medical exam for a new policy.
- [Claims on most new policies for up to the first two years can be denied based on inaccurate statements.
- Suicide limitations may begin anew on the new coverage.]

IF YOU ARE KEEPING THE OLD POLICY AS WELL AS THE NEW POLICY:

- How are premiums for both policies being paid?
- How will the premiums on your existing policy be affected?
- Will a loan be deducted from death benefits?
- What values from the old policy are being used to pay premiums?

IF YOU ARE SURRENDERING AN ANNUITY OR INTEREST SENSITIVE LIFE PRODUCT:

- Will you pay surrender charges on your old contract?
- What are the interest rate guarantees for the new contract?
- Have you compared the contract charges or other policy expenses?

OTHER ISSUES TO CONSIDER FOR ALL TRANSACTIONS:

- What are the tax consequences of buying the new policy?
- Is this a tax-free exchange? (See your tax advisor)
- Is there a benefit from favorable "grandfathered" treatment of the old policy under the federal tax code?
- Will the existing insurer be willing to modify the old policy?
- How does the quality and financial stability of the new company compare with your existing company?

30 DAY RIGHT TO CANCEL

In the event of a replacement transaction, you may cancel this policy by delivering or mailing a written request to the Company. You must return the policy to the Company before midnight of the thirtieth day after the day you receive it. You will receive an unconditional full refund of all premiums or considerations paid on it, less any withdrawals and indebtedness, including any policy fees or charges or, in the case of a variable or market value adjustment policy, payment of the cash surrender value provided under the policy plus the fees and other charges deducted from the gross premiums or considerations or imposed under the policy. Your written request given by mail and return of the policy by mail are effective on being postmarked, properly addressed and postage prepaid.
